Replacement Chrome Rear Bumpers ... Style And Utility All In One

Chrome Rear Bumpers give your truck the ability to tow up to 300 pounds tongue weight and 3,500 pounds trailer weight.

Chrome Rear Diamond Tread Bumper

29-5285

These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity. A Bumper Mounting Kit #29-0049, #29-0050 or #29-0051 is required when installing these rear bumpers.

This traditional utility bumper features a classic embossed steel top plate on a stylish and reliable step bumper.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
29-5285	CHROME REAR BUMPER-DIAMOND TREAD PICKUP	82-93 (1)	249.94	199.95
29-0049	BUMPER MOUNTING KIT PICKUP	82 (1)	37.44	29.95
29-0050	BUMPER MOUNTING KIT PICKUP	83-93 (1)	37.44	29.95

29-0051	BUMPER MOUNTING KIT BLZ JIM	83-94 (1)	37.44	29.95

Chrome Rear Bumper With Molded Polymer Step Pad

29-5289

This classic style rear step bumper features step pad to give your truck that finishing touch. Made from molded polymer, the step pad protects your truck from scratches while the grid pattern adds an excellent anti-skid surface for sure footing while loading and unloading.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
29-5289	CHROME REAR BUMPER-W/STEP PAD PICKUP	82-93 (1)	249.94	199.95

29-0051	BUMPER MOUNTING KIT BLZ JIM	83-94 (1)	37.44	29.95

Chrome Rear Star-Lite Bumper

29-5287

Made Exclusively for LMC Truck, this Chrome Rear Star-Lite Bumper has a diamond tread on the top, offering sure footing when the bumper is used as a step. The internal mounted Backup Lights look great and make it safer to back up the truck. A larger area is illuminated making it easier to see how to maneuver into tight spots and avoid hazards at night.

Preassembled Grille With 4MM Billet For GMC

Composite Headlight Models

GMC Sonoma 1994-04

GMC Jimmy 1995-01

29-5025

Grille Shell: Comes ready to install with Billet Aluminum Inserts already installed.

The Billet Aluminum Inserts:

- Made from the highest quality materials.
- Face edges of the billet insert are polished.
- Sides and back have an EDP (Electro Deposit Primer) finish.
- Billet cross bars have been welded to V channels which give the inserts strength without the unsightly welds found on some aftermarket inserts.
- For use on composite headlight models.
- Mounting hardware included.
- Billet Aluminum Inserts come with a 2 Year Warranty.
- Bolt-On, No Cutting.

29-5027

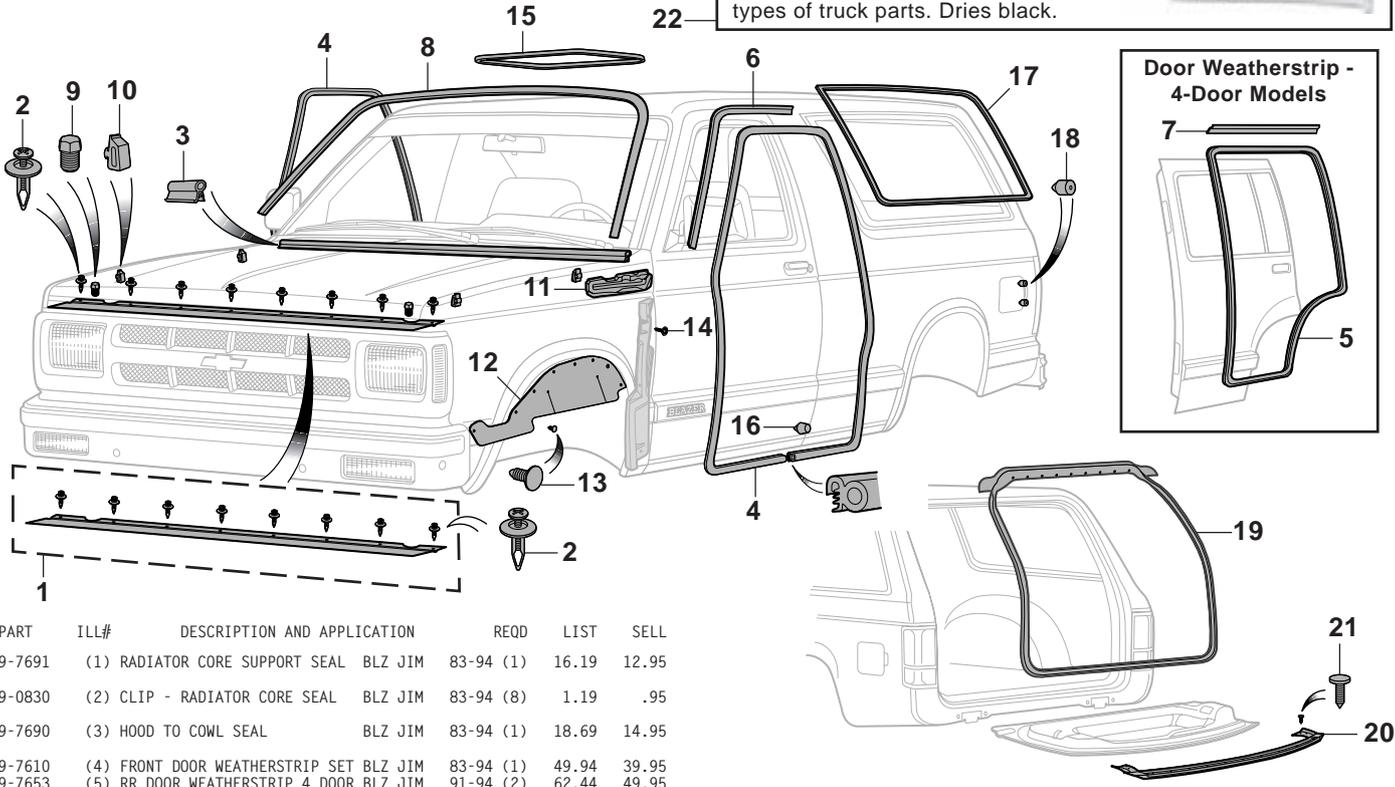

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL

Your Truck Could Be Shown Inside This Catalog !

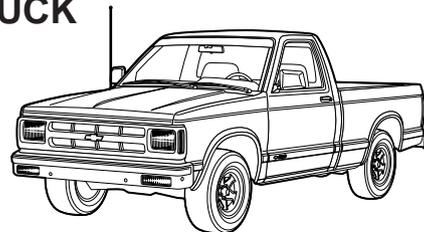

You worked hard restoring your truck ... and now you want others to see it. Send in a glossy (color or black and white) photo of your truck to the address at the bottom of the page - Attn: Graphics Dept. Include your name, address, phone number and a note about what you've done to it. Please add any interesting stories you may have about it. Someday you might see your truck inside this catalog or on our website. Then you can show it off to family, friends and other truck owners.

Why You Should Buy From LMC TRUCK

Dear Chevrolet Truck Owners:

As your eyes travel this catalog, you'll benefit from: What you need to know about taking care of your truck ... how to keep your truck looking good on the inside and out ... how to improve performance ... how to keep the body of your truck in trim shape ... how to make your engine sound great.

But that's not all. Here are ten more reasons you should do business with LMC TRUCK based on the satisfied experiences of thousands of customers across the country and abroad.

- Confidence** ♦ You have the confidence you are dealing with an established company in business for over 25 years.
- Security** ♦ You are secure ordering online with the latest 128 bit encryption technology to keep your information safe using the industry standard Secure Sockets Layer "SSL". The SSL technology encrypts your credit card information to prevent it from being intercepted as it travels over the Internet.
- Trust** ♦ You can trust us. Through LMC TRUCK you can depend upon the reliability of our truck parts and accessories and the driveability they provide. They all add up to performance.
- Convenience** ♦ Direct online ordering is available 24 hours a day at www.LMCtruck.com or by fax at 1-800-541-8525 without having anyone else in the middle. If you do not have an LMC TRUCK parts catalog yet, request one of our free catalogs today. You also have the confidence you can order parts and accessories from LMC TRUCK by mail or toll-free by telephone at 1-800-LMC-TRUCK, 7 days a week.
- Prices** ♦ You will certainly like our prices ... because they are very much in line. Whether it is original equipment, replacement or reproduction parts, LMC TRUCK prices are among the lowest in the business because of our volume purchasing. By dealing with Long Motor Corporation and LMC TRUCK through internet online ordering, mail order, fax or telephone order, you will have more dollars left over to put into your truck. Indeed, the way to have fun is to be affordable! In fact, you will find that the prices at LMC TRUCK are lower than the local truck parts store. Find the "Right Part ... Right Price ... Right Now"™. Shop LMC TRUCK.
- Protection** ♦ All orders at LMC TRUCK come with a full 180 days of purchase protection, return or exchange.
- Inventory** ♦ You will like our huge inventory of parts and accessories. We stock over 28,500 pickup truck parts and accessories so that you can get the part you need for your pickup truck FAST.
- Assurance** ♦ You have the assurance of working with Long Motor Corporation and LMC TRUCK, America's largest truck parts and accessories distributor. LMC TRUCK carries the most extensive inventory of truck parts and accessories in the world. Our Customer Service department will work with you to process your truck parts and accessories order in the most efficient manner possible! You will see that LMC TRUCK has been going beyond the call of duty to help ALL of our customers since 1981.
- Credit / Debit** ♦ We accept Visa ... MasterCard ... American Express and Discover.
- Ordering** ♦ Discover the ease, safety and convenience of ordering your truck parts and accessories online at www.LMCtruck.com. A direct order line is also available to you 7 days a week ... the toll free number in all 50 United States and Canada is 1-800-LMC-TRUCK. Truck parts and accessories orders can be placed with LMC TRUCK worldwide at 1-913-541-0684.

We Care For You And Our Environment

LMC TRUCK is making a concentrated effort to provide safe delivery and keep the environment as clean as possible. We use a polystyrene "peanut" as pack fill. It is photodegradable - which means that it will disintegrate in the sun, not in a landfill. It has been produced without ozone depleting chlorofluorocarbons.

Codes have been given to identify recycling processes, check with your recycling center to see if they accept polystyrene code 6. If this "peanut" is not recycled and is sent to a landfill, it's still environmentally safe.

You may have noticed that some of your packing materials do not have our company name and logos printed on them; we use other boxes that have misprints or are overruns to help control waste and packing cost. **LMC TRUCK** is helping you and our environment.

Production Option Identification

The service parts identification label, located in the glove box, lists all production options for your vehicle. The options are represented by a three-character code using letters and numbers.

The codes are printed in alphabetical then numeric order. In many instances it will be necessary to refer to this label to identify the correct part to order.

1982-04 S10, S15, Sonoma And 1983-05 Blazer, Jimmy History

- 1982** Chevrolet S10 and GMC S15 are introduced replacing the LUV mini-pickup sourced from Isuzu of Japan. The S-series was a new size, larger than the LUV mini-pickup and smaller than the full size CK pickup. In the first year only two-wheel drive versions were available. Standard equipment included a 1.9L four-cylinder engine, four speed manual transmission, bench seat and dual outside rearview mirrors. Also available as an option was a 2.8L V6 engine.
- 1983** The extended cab pickup was introduced. Also introduced were the forerunners of the compact-SUV, the S10 Blazer and the GMC S15. The Blazer and Jimmy models were available only as 2 door models and featured a drop down tailgate with lift glass window at the rear. All models were available with four-wheel drive as an option and a new 2.0L four-cylinder engine was made available.
- 1984** Overall appearance remained unchanged. Features were expanded to include a new sport suspension for regular cab two-wheel drive pickups and four-wheel drive SUVs could be ordered with an off-road package which included Bilstein shock absorbers, skid plates, tow hooks and bigger tires.
- 1985** The most notable difference from the outside was the change to the fender emblems. The new emblems were bigger with a large red "S". Under the hood was a new 2.5L four-cylinder engine with TBI (throttle body injection).
- 1986** Interiors were updated. Changes included new dashboard, door panels and seat trim. Like the 2.5L, the 2.8L engine adopted throttle body fuel injection boosting power from 110 to 125 horsepower. A new emblem that read "2.8L Fuel Injection" appeared below the driver's side headlight signifying the change.
- 1987** A serpentine drive belt replaced the multiple standard V-belts on both the 2.5L and 2.8L engines. Although the output remained the same, the 2.5L received a revised intake manifold and cylinder head. Overall appearance remained unchanged.
- 1988** Chevrolet's new 4.3L Vortec V6 engine became an option as well as a manually operated factory installed sunroof. The rear seats on Blazer and Jimmy models received shoulder belts for added safety.
- 1989** Now standard on all models were rear wheel anti-lock brake systems. A new electronic instrument cluster was now an option. It included speedometer, tachometer, voltmeter, fuel, oil pressure and engine coolant temperature gauges. Four-wheel drive models with the standard 2.8L engine received a new transfer case designed for smoother operation and reduced road noise. A special version of the truck called the Cameo was introduced. Only 2,198 were produced. Blazer and Jimmy models were offered with an optional rear window wiper and washer combination.
- 1990** The standard instrument cluster was improved and now included voltmeter, engine coolant temperature and oil pressure gauges. Front tow hooks also became standard. The 4.3L engine was standard for all Blazer and Jimmy models as well as all four-wheel drive pickups and was mated to an all-new Hydramatic built five-speed manual transmission with overdrive.
- 1991** The four-door version of the Blazer and Jimmy was introduced with four-wheel anti-lock brakes as standard equipment. Grilles revised to 1-piece design on Chevrolet and GMC models. Chevrolet offered horizontal bar and criss cross pattern grilles on pickups and Blazers, both interchangeable. New emblems and body side moldings were also among the changes. The GMC S15 pickup was renamed Sonoma. A limited edition GMC Sonoma Syclone pickup was offered for one year. 280 HP turbocharged, intercooled, fuel injection, 4.3L Vortec V6 engine, featuring all wheel drive and four wheel anti-lock brakes, the Syclone could do zero to 60 in less than 5 seconds making it one of the fastest vehicles of any kind on the road.
- 1992** The GMC S15 Jimmy was changed to simply GMC Jimmy. The "EL" trim level previously available only on two-wheel drive pickups was extended to the four-wheel drive pickups as an entry-level model. A new electronic-shift transfer case was optional for all four-wheel drive models except the "EL". A new 4.3L V6 was offered with 200hp, 40 more than the other 4.3L V6. Much like the Syclone of the previous year a limited edition of the two door GMC Jimmy called the Typhoon was introduced that had a 280hp turbocharged 4.3L V6 and all-wheel drive.
- 1993** The S10 Blazer's name changed to S-Blazer and the S15 Jimmy was changed to Jimmy since larger full-size Jimmy was renamed the Yukon in 1992. A new electronic 4L60-E Hydramatic four speed automatic overdrive transmission was available. A new heavy-duty cooling system with the automatic transmission was introduced. It included an engine cooler as well as a transmission cooler. This was the final year for the GMC Typhoon.
- 1994** The S-Blazer and Jimmy continued mostly unchanged from the previous model year but did receive impact guard beams in the doors and a high-mounted 3rd brake light in the rear for safety. The all-new S-Series trucks were designed for value, performance and comfort. They featured a forward sloping hood, wraparound grille, were 3" wider and had 20% more glass area than previous models. The Chevrolet S10 was available in two trim levels: base and LS, and the GMC Sonoma was available in three: SL, SL5 and SLE. A new 2.2L 4cyl engine was standard on two-wheel drive models and the 4.3L that was standard on four-wheel drive models was optional. Rear wheel ABS was standard on 4cyl trucks; 6cyl models received 4-wheel ABS. Optional ZR2 four-wheel drive off-road package featured a 3-inch lift (over regular 4X4s), 3.9" wider stance, 31" tires, fender flares and skid plates. SS package for two-wheel drive models included ZQ8 sport suspension, body colored bumpers and grilles, aluminum wheels and fog lights.
- 1995** The S-Blazer was renamed "Blazer" being designated as a compact-SUV since the full-size Blazer was renamed Tahoe. The Blazer and Jimmy were updated and appeared similar to the pickups that underwent redesign the previous year. Driver's side airbag and daytime running lights standard. ZR2 package available on extended cab models. Keyless entry optional. Backlighting was added to power window, lock and mirror switches. All-wheel drive optional on four door Blazer LT and Jimmy SLT models.
- 1996** Driver's side third door optional on extended cab models. Sportside model introduced. 4.3L V6 engines were revised and now identified as 4300 V6, featuring OBD II diagnostics. Brake/transmission shift interlock included with automatic transmissions. 4-wheel ABS was standard on all models. Five speed manual transmission optional on two door Blazer and Jimmy models.
- 1997** Blazer and Jimmy models were available with optional one-piece liftgate with an integral glass hatch. ZR2/Highrider Package now available on two door Blazer and Jimmy models. Rear disc brakes standard on all wheel drive models. A special standard cab short bed electric pickup was introduced for fleet buyers. A power sunroof became available on Blazer and Jimmy models.
- 1998** Styling revision included new front bumper fascia, grille and standard composite headlights. Interior received new instrument panel, seats and floor console. Dual front airbags standard; the passenger side featured a deactivation switch. All models featured Passlock theft deterrence and battery rundown protection. Rear wheel disc brakes standard on two and four-wheel drive Blazer/Jimmys and four-wheel drive pickups. Envoy package available on Jimmy models. Electric pickup dropped.
- 1999** Xtreme model pickup replaced SS package. The two-wheel drive Xtreme was lowered two inches and included ground effects, sport suspension package, monochromatic grille and bumpers. Larger folding rear view mirrors were standard and flash to pass feature was added. Trailblazer package added to Blazer. Autotrac feature added to four-wheel drive Blazer and Jimmy. Autotrac feature allowed automatic engagement of 4WD when wheel slippage was sensed.
- 2000** Base trim level was available on extended cab models. Base and SL trim level was dropped from Blazer and Jimmy. Diamond edition of Jimmy was introduced with quilted seat upholstery and aluminum lower body molding. Vortec 4300 engines received enhancements for smoother, quieter running. Four-wheel drive models received a standard heavy-duty suspension.
- 2001** Four-wheel drive, four-door crew cab introduced with 4.3L V6 and a 55" bed. Crew cabs featured a Z85 increased capacity suspension and factory installed bedliner. Four-wheel drive standard cab models dropped. Xtreme model Blazer offered on two door models only. Last year of production for the Jimmy, replaced by the Envoy.
- 2002** All extended cab pickups included driver's third door. Air conditioning and a tachometer were standard on all models. Crew cabs were now available with leather seats.
- 2003** Sonoma ZRX Street Rider package featured a stepside bed, ZQ8 suspension, bedrails and power sunroof. Heat appearance package for Xtreme models featured front fender and door flame graphics.
- 2004** Pickups available only as a crew cab 4X4 with 4.3L V6 and automatic transmission. S10 and Sonoma trucks were replaced with all new models, the Chevrolet Colorado and GMC Canyon.
- 2005** The Blazer four door is sold primarily to the fleet market leaving only the two-door model for sale to the public. Last year of production for the Blazer, replaced by the TrailBlazer.

For Engine Identification - See Page 9

1982-04 Truck Vehicle ID Number (VIN)

The VIN plate is mounted on the driver's side of the instrument panel and is visible through the windshield.

1GC C S 1 4 Z X L 8 10001

Division _____

Windshield & Rear Window Installation Tips:

1. Fit your new window rubber to your window opening first, then install the window glass.
2. Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#38-0796) to ease installation and avoid damaging your window rubber.
3. Window rubber shrinks; your new window rubber may appear slightly larger than the original prior to installation.

SHADED Window has a full light green tint with a dark band at the top of glass.

TINTED Window has a full light green tint to glass.

DEEP TINTED Window has full dark gray tint to glass.

Windshield Stick A glass installer's most useful tool! Can be used to install or remove windows or window rubber. This plastic tool measures 8" in length for an easy grip.

38-0796

Windshield and Glass Sealant is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals.

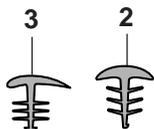

38-0789

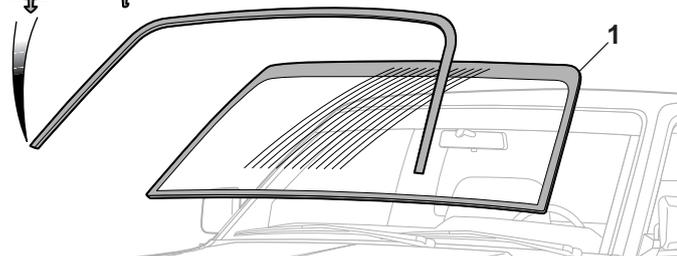

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a \$100.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.

Double Black Film Kit

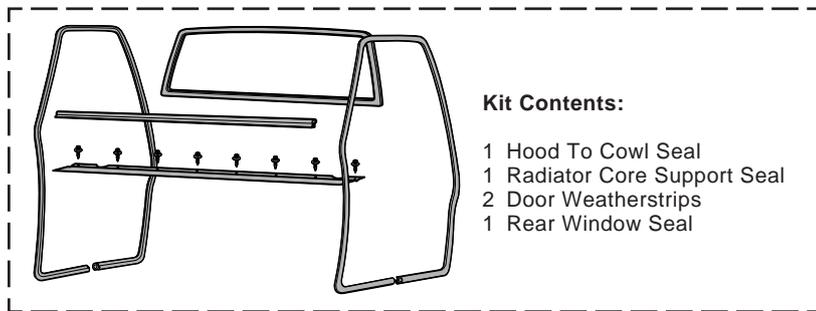

With the Double Black Film Kit you can ride in your truck without being bothered by the rest of the world. Customize your truck with an easy-to-install Double Black Film Kit with self-adhesive backing. The 20" x 60" kit offers the maximum protection from the sun coming in through your truck's rear window. Double Black Film Kit makes glass more shatter resistant. Film kit allows 5% light transmission. *Check state and local laws before ordering.*

Power Window Kit
 See Page 102

Loctite Viper Lube
 See Page 114

Removes inside door and window handles easily, without losing the attaching spring, it remains in handle. Reverse end of tool can be used to remove door panels.

After installing new window rubber components window movement may be noticeably stiffer until the new rubber components are broken in.

Rear Door Components

Chevrolet Blazer 1991-94 GMC Jimmy 1991-94

Removes inside door and window handles easily, without losing the attaching spring, it remains in handle. Reverse end of tool can be used to remove door panels.

#38-0792 Super Weatherstrip Adhesive is fast drying, high strength and waterproof. It is great for bonding all types of truck parts. Dries black.

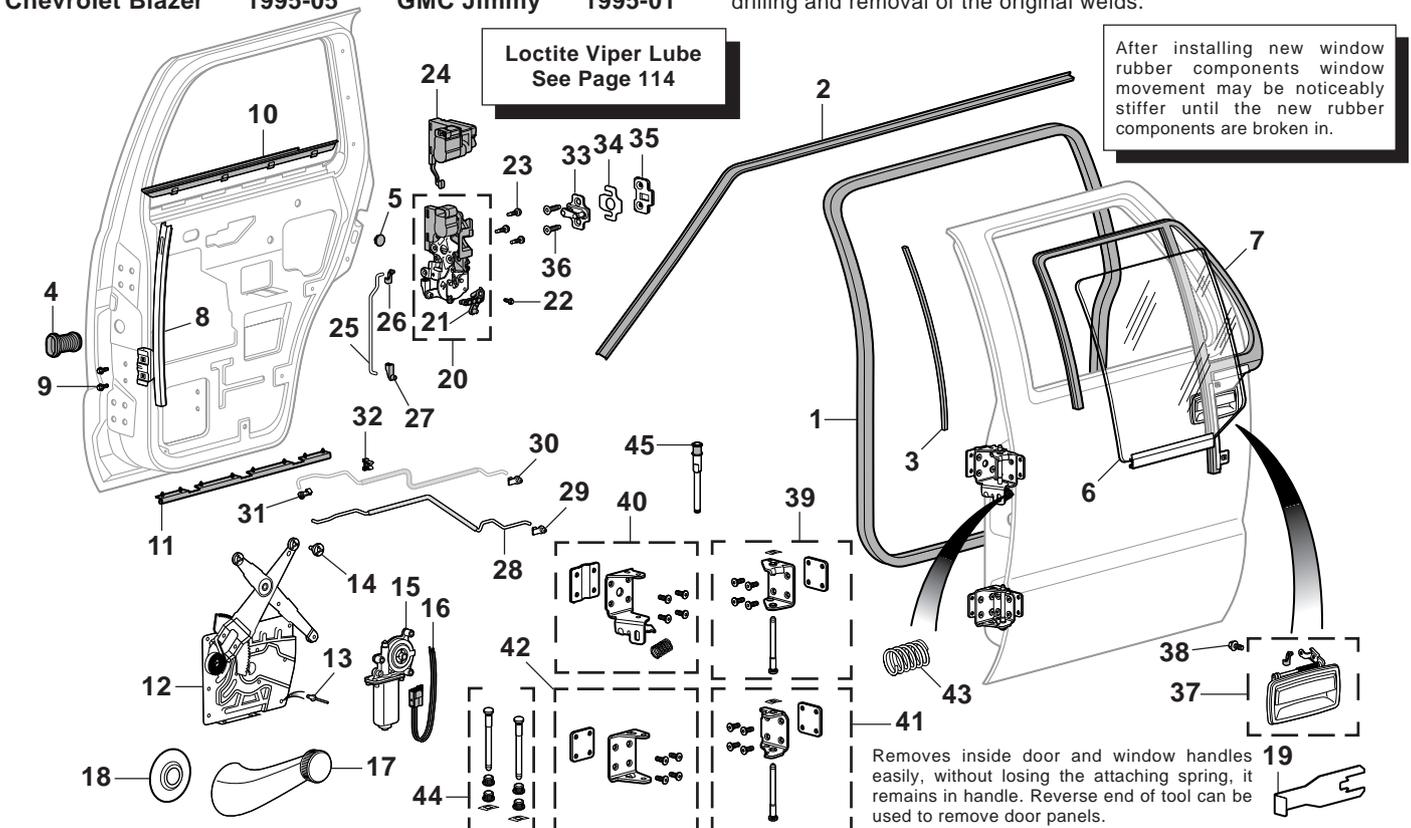

Hinge Replacement: The original door hinges were welded on from the factory. Installation of Hinge Replacement Kits will require drilling and removal of the original welds.

Front Bumper With Plain Front

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
 Chevrolet Blazer 1983-90 GMC Jimmy 1983-90

Premium Chrome Bumpers

1991-1993 Bumper brackets may be welded to frame.

Premium Chrome Replacement Bumpers

- Stamped from new tooling using OE-quality steel for strength and durability.
- Bumper is buffed and polished to achieve a smooth defect-free plating surface.
- The Triple Nickel Plating process creates a brilliant, high-quality mirror-like finish.
- 5 Year Limited Warranty on rust-through perforations.

Premium Paintable Bumpers are made from the same tooling as the Premium Chrome Replacement Bumpers but have a high-quality powder coat finish. The powder coat finish offers a smooth surface for applying your favorite color to match your truck.

Steel Rear Roll Pans Give Your Truck A Smooth Look

Chevrolet S10 1982-04 GMC S15 Sonoma 1982-04

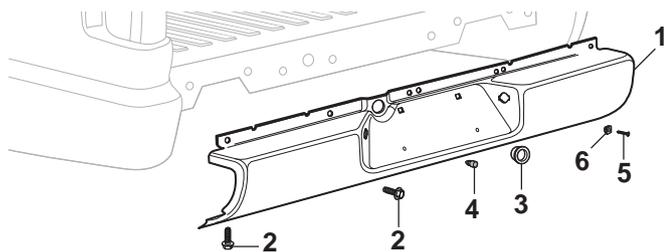

Roll Pans give your truck the smooth look by eliminating the stock rear bumper. Designed for easy installation. Use the included bolts, which are concealed by the roll pan, or weld in place to give your truck a truly custom look. Finished with quality Black Electro Deposit Primer ready for painting. Check your local bumper laws before ordering.

Cab / Bed To Frame Mounting Hardware / Radiator Core Support

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93

Loctite Rubberized Undercoating - See Page 114

One kit does the job! The complete mounting kit includes the Radiator Core Support Mounting Kit, Front & Rear Cab to Frame Mounting Kit and the Bed to Frame Mounting Kit. These rubber cushions are made exactly like the originals from the factory. Installing new cushions will help return your truck to its original smooth ride. Replace your rusted, corroded hardware for safety and security. This kit does it all and saves you money! Call or go online and order yours today!

Cab To Frame Mounting Kit

Cab To Frame Mounting Kits include two shims per cab mount location. The shims may not be required depending on how level the cab mount frame supports are welded to the frame. If your cab does not align with the front fenders and bed, you will need to use the shims for proper alignment. It is possible the shim requirements will be different for each cab mounting location.

Front Steel Body Parts

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
 Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

Replacement body parts are quality steel replacement parts that are made overseas. Having been shipped half way around the world by ship and then by truck, there will most likely be a few scratches or small dents; this cannot be helped and should be expected. A small amount of repair may be required. All body parts are packaged and handled with great care.

Loctite Rubberized Undercoating - See Page 114

To ensure proper fit of repair panels, do not begin cutting the existing sheet metal until you have received and checked the fit of the new panel. Due to variations between manufacturers, dimensions may vary slightly.

Steel Bed Panels

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93

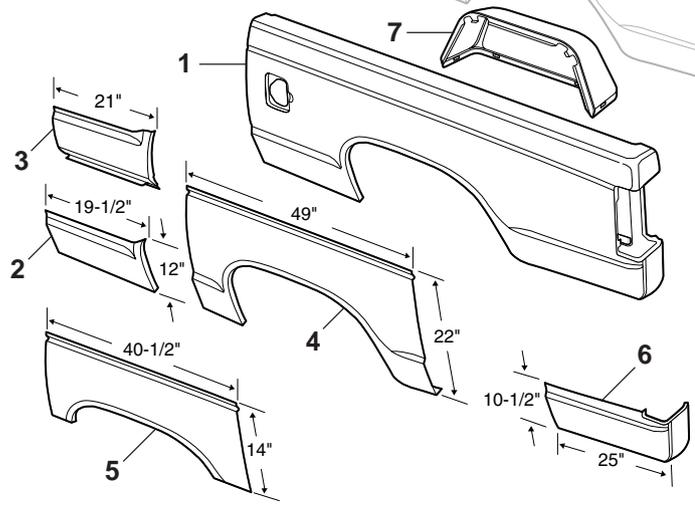

Replacement body parts are quality steel replacement parts that are made overseas. Having been shipped half way around the world by ship and then by truck, there will most likely be a few scratches or small dents; this cannot be helped and should be expected. A small amount of repair may be required. All body parts are packaged and handled with great care.

To ensure proper fit of repair panels, do not begin cutting the existing sheet metal until you have received and checked the fit of the new panel.

Due to variations between manufacturers, dimensions may vary slightly.

Left Hand (LH) & Right Hand (RH) Means As You Sit Facing Forward In The Truck

Body To Frame Mounting / Radiator Core Support

Chevrolet Blazer 1983-05 GMC Jimmy 1983-01

Loctite Rubberized Undercoating - See Page 114

One kit does the job! The Complete Mounting Kit includes the Radiator Core Support Mounting Kit and Body to Frame Mounting Kit. Installing new cushions will help return your truck to its original smooth ride. Replace your rusted, corroded hardware for safety and security. This kit does it all and saves you money! Call or go online and order yours today!

Body To Frame Mounting Kit - 2 Door

Body To Frame Mounting Kits include one shim per body mount location. The shims may not be required depending on how level the body mount frame supports are welded to the frame. If your body does not align with the front fenders, you will need to use the shims for proper alignment. It is possible the shim requirements will be different for each body mounting location.

Rear Steel Body Repair Panels

Chevrolet Blazer 1983-05 GMC Jimmy 1983-01

2 Door

4 Door

To ensure proper fit of repair panels, do not begin cutting the existing sheet metal until you have received and checked the fit of the new panel. Due to variations between manufacturers, dimensions may vary slightly.

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a \$100.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted.

Replacement body parts are quality steel replacement parts that are made overseas. Having been shipped half way around the world by ship and then by truck, there will most likely be a few scratches or small dents; this cannot be helped and should be expected. A small amount of repair may be required. All body parts are packaged and handled with great care.

Pre-Cut Body Side Molding Kits, Side Molding, Wheel Arch Molding And Door Edge Guard Set

Standard & Extended Cab
Chevrolet S10 1998-03

Pre-cut, no hassle, ready to install truck molding with factory formed or factory die-cut end treatments. Clear top-coated chrome mylar moldings make your truck look new again. Each self-adhesive pre-cut section attaches with 3M™ acrylic foam tape for an easy install. Due to varying option packages, modification of kit contents may be required for your truck.

Vinyl Edge Sealer Pen
See Page 114

Cowl Induction Steel Hoods Give Your Truck A High Performance Look

- Cowl Induction Steel Hood creates Increased Airflow for Increased Performance.
- The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm under hood air.
- Muscle Car, Street Rod appearance lets people know you mean business.
- Increases engine cooling for better performance.
- Increased engine compartment space allows you additions of High Performance add-ons.
- Made from primed high-quality steel with full inner frame that reuses your original factory latch and hinges.
- Paint and bolt-on application.

Preassembled Grille With 4MM Billet For GMC

Composite Headlight Models

GMC Sonoma 1994-04

GMC Jimmy 1995-01

Grille Shell: Comes ready to install with Billet Aluminum Inserts already installed.

The Billet Aluminum Inserts:

- Made from the highest quality materials.
- Face edges of the billet insert are polished.
- Sides and back have an EDP (Electro Deposit Primer) finish.
- Billet cross bars have been welded to V channels which give the inserts strength without the unsightly welds found on some aftermarket inserts.
- For use on composite headlight models.
- Mounting hardware included.
- Billet Aluminum Inserts come with a 2 Year Warranty.
- Bolt-On, No Cutting.

Billet Aluminum Grilles Are Custom Made To Fit Your GMC Truck

GMC Sonoma 1991-04
GMC Jimmy 1991-01

29-5005

Designed for the ultimate sport truck! Developed as a look-a-like from the street rod and hot rod truck market, only it is priced at a fraction of the cost. Custom made to fit your truck from the highest quality billet 6061T6 aluminum and assembled by expert craftsmen. Each grille insert is powder coated to ensure a lasting finish. Grille inserts match original factory grille angles. The attention and quality control that goes into each grille insert is second to none. Grille inserts use factory hardware to install.

29-5007

Round & Square Chrome Custom Tube Grilles

Chrome Custom Tube Grilles are hand made in the USA from heavy-duty 20-gauge square tubular steel. Custom Round Grilles give a different look to your truck and Custom Square Grilles give a new look to your truck. Made with custom built tooling, the grilles are handcrafted from high-quality tubular steel, polished and triple chrome-plated using a new improved method to ensure longevity. Grilles match original factory grille angles. Mounting brackets may need to be cut or altered for installation on trucks equipped with air conditioning. Grille uses factory hardware to install.

All Chrome Grilles ... Add A Brighter Look To The Front Of Your Truck

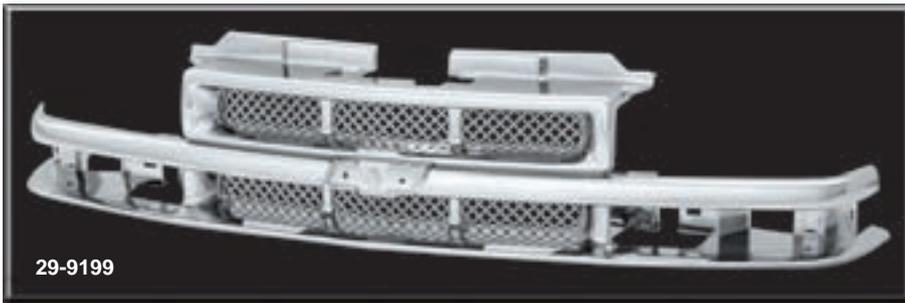

Chevrolet S10 1994-04
 Chevrolet Blazer 1995-05

29-9176

29-9198

29-9199

Add a brighter look to the front end of your truck. You can keep the classic OE style but enjoy a brighter, cleaner look of all chrome and at an affordable price.

The grilles are chromed for that extra shine instead of the gray/black plastic in the OE grille. Mounting hardware included. Easy to install ... call or go online and order yours today!

Heavy-Duty Headlight Harness

Chevrolet S10 1982-04 GMC S15 Sonoma 1982-04
 Chevrolet Blazer 1983-05 GMC Jimmy 1983-01

Not for use on models with daytime running lights.

36-3580

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
36-3580	HEAVY-DUTY HEADLIGHT HARNESS CHEVY GMC 82-93 (1)		37.44	29.95
36-3583	HEAVY-DUTY HEADLIGHT HARNESS FOR 29-8488 94-97 (1)		37.44	29.95

Upgrade your headlight's wiring harness for maximum light output with this Heavy-Duty Headlight Harness. If you are adding brighter bulbs or upgrading to high power halogen lights, then you need to improve your wiring to take full advantage of the extra light output.

This Headlight Harness draws power directly from your battery, whereas your original wiring draws its power from your headlight switch.

This harness takes the load of switching the high current needs of upgraded headlights from your old factory switch. Not only does this prevent excessive wear on the switch, it will lessen the chance of your wires melting or catching fire. This Heavy-Duty Harness is complete with separate relays for low and high beams and features OE style headlight sockets for easy installation with no splicing or cutting required. Call or go online and order yours today!

36-3582 HEAVY-DUTY HEADLIGHT HARNESS "A" CHEVY GMC 94-05 (1) 37.44 29.95

Note: "A" Fits models with composite headlights only.

LED Under Body Lights ... Universal Fit For Any Car Or Truck

Long life, low power draw LEDs are brighter and more durable than neon. Special reflector tubes provide a bright, evenly dispersed light glow. LEDs light up and flash in different modes. Control the modes with the master control box inside the vehicle or with the included keychain remote.

Seven-color kit lets you choose from seven different colors: red, blue, green, magenta, yellow, cyan or white. Each color can be changed to nine different sequential modes including steady-on, flashing, phasing, strobing, scatter and music pulse. Red and blue kits feature six changeable modes including steady-on, flashing, scanning and music pulse.

Pre-terminated ends on tubes plug into each other and the control box for a simple installation. Cigarette lighter is all that is required for electrical hook-up. Kits contain two 48" tubes, two 36" tubes, mounting brackets, screws, master control box and keychain remote. Universal application makes this a great kit to add to any of your trucks or cars. Call or go online and order yours today! *May not be legal in some states; please check with your state and local authorities before ordering.*

Red LED Tailgate Light ... Adds Style And Safety

LED Tailgate Light turns on with your tail lights, brightens with your brake lights and flashes with your turn signals. Mounts neatly in the space between your tailgate and bumper with the included self-stick tape; no drilling required. Simple hook-up with the attached 4-prong adaptor that connects to your factory hitch plug or can be hard wired, if required.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
37-7328	LED TAILGATE LIGHT-RED 49" FLEETSIDE	(1)	62.44	49.95

3 Color LED Tailgate Light ... For Increased Safety With Style

Red, amber and white LEDs add more visibility and safety to your truck. Unit mounts neatly in the space between your tailgate and bumper with the included self-adhesive tape; no drilling required. Simple hook-up with the attached 4-prong adaptor that connects to your factory hitch plug or can be hard wired, if required. You will need to connect a power wire and reverse light wire to the included logic module to control the amber turn signal and white reverse light LEDs. Get noticed and be safer with style. Call or go online and order yours today!

- Full-length, dual-brightness red LEDs for running lights and brake lights.
- Red LEDs make your truck safer and more visible.
- Outer amber LEDs for turn signals.
- Amber LEDs clearly distinguish your turn signals from red brake lights.
- Wide center section white LEDs for reverse lights.
- More light where you need it most for backing up.

Euro Style 200MM Headlight

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
 Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

36-0282

- OE-quality headlight has an aluminum die-cast housing with a protective finish coating, which makes the housing corrosion free.
- A brighter light focused on the road for a greater distance.
- Maximum light output is produced.
- Strong semi-hardened crystal clear glass lens.
- Lens does not diffuse the light associated with traditional headlight lenses.
- Includes a high-efficiency white halogen 12V 60/55 watt replaceable bulb.
- Light is DOT and SAE approved.

For added style, replace the white halogen bulb with a halogen blue-coated bulb #36-0291. The blue-coated bulb creates an intense white light which is popular in today's new cars and trucks. Get the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

36-0291

If you are adding brighter bulbs or upgrading to high power halogen lights, use a Heavy-Duty Headlight Harness. For more information, see page 70.

Projector Headlight Set

European style and performance projector headlights focus the light pattern on the road farther and without lost light associated with traditional headlights. A convex lens projects the light accurately on the road giving better vision and minimum glare. The Ion coated low beam light adds a slight bluish light similar to Xenon or High Intensity Discharge (HID) lights. The LED Halo Rim which circles the high beam light on #29-8490 and the low beam light on #29-8487 makes these lights truly cool, just like what is found on many of today's sports cars.

Euro Tail Light Lens Sets incorporate an ultra clear lens with a chrome, black or smoke housing and uniquely styled red reflector lenses that use the original clear bulbs, sold separately. This lens assembly complies with all federal regulations. All required test functions are indicated on each lens assembly, as required by law. Euro Tail Light Lens Sets are an easy replacement of your stock factory lenses for a street style look.

Replacement Chrome Rear Bumpers ... Style And Utility All In One

Chrome Rear Bumpers give your truck the ability to tow up to 300 pounds tongue weight and 3,500 pounds trailer weight.

These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity. A Bumper Mounting Kit #29-0049, #29-0050 or #29-0051 is required when installing these rear bumpers.

Chrome Rear Diamond Tread Bumper

29-5285

This traditional utility bumper features a classic embossed steel top plate on a stylish and reliable step bumper.

Chrome Rear Star-Lite Bumper

29-5287

Made Exclusively for LMC Truck, this Chrome Rear Star-Lite Bumper has a diamond tread on the top, offering sure footing when the bumper is used as a step.

The internal mounted Backup Lights look great and make it safer to back up the truck. A larger area is illuminated making it easier to see how to maneuver into tight spots and avoid hazards at night.

Replacement License Plate Lamp Set

Fits Replacement Bumpers listed above only.

36-4505

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
36-4505	REPLACEMENT LICENSE PLATE LAMP SET	(1)	12.44	9.95
36-0222	REPLACEMENT BULB FITS 36-4505 LAMP	(2)	1.19	.95

Replacement Backup Light

36-4416

Lights can be easily spliced into the existing backup light wires so they will come on each time you shift into reverse. The additional light is excellent for hooking up trailers or boats in the dark since they are located closer to the hitch area.

However, in some cases factory wiring may not transfer enough power to properly illuminate the lights. For full illumination install a Backup Light Wiring Kit (sold separately #36-0735).

OE Style Fleetside Replacement Rear Bumper

29-9785

This OE Style Bumper meets your replacement needs. OE Style Bumper matches the original bumper in every way, from the hitch assembly and step pad design to the lighting assembly.

It is made from die-formed construction that has been tested to maximum 350 pounds tongue weight and 3,500 pounds trailer weight. Do not exceed truck manufacturers recommended towing capacity. Includes OE style brackets and necessary mounting hardware.

Custom Chrome Lighted Bumper

- Stamped from new tooling using OE-quality steel for strength and durability.
- Bumper is buffed and polished to achieve a smooth defect-free plating surface.
- The Triple Nickel Plating process creates a brilliant, high-quality mirror-like finish.
- 5 Year Limited Warranty on rust-through perforations.
- Features two halogen fog lights, one illuminated rocker switch and one 12 volt relay.
- Fog Lights are OE quality, DOT and SAE approved and are legal for on road use.
- Lights have an aluminum die-cast housing and three-tier protective finish coating, which makes the housing corrosion free.
- State-of-the-art reflector, in combination with a strong semi-hardened crystal glass lens, gives you maximum light output from a 3-3/4" diameter light.
- Uses a high efficiency halogen 12V 55W replaceable bulb.
- 3 Year Limited Warranty on light assemblies (excluding bulb).
- Lights are installed in the bumper, complete with all necessary wiring and installation instructions.

Custom Chrome Lighted Bumper

Bug Deflector ... The Ultimate Protection And Styling

Add styling and hood/windshield protection to your truck. Custom molded Bug Deflectors are manufactured from "Implex", a technologically advanced, rugged yet flexible high impact material that is virtually unbreakable, very scratch resistant, ultra-violet stable and provides excellent weatherability. The stand-away design allows easy cleaning behind the deflector and prevents contact with the hood at high speeds or in high wind conditions. Installation is fast and easy with all necessary hardware included.

Available in Smoke only. Call or go online and order yours today!

Aluminum Running Boards Give You A Step Up

Full size stone guards protect the Diamond Tread and Extruded Running Boards from road debris. Mounting brackets are made from heavy-duty steel for added strength.

Extruded Aluminum Running Boards feature classic styling on a functional board. Rugged extruded aluminum that is finished with a brite-dip anodized coating makes these running boards durable. They feature a rough tape that runs the entire length of the boards to give you secure stepping all year round.

Diamond Tread Running Boards will dress up your truck with a classic design in diamond tread. They are constructed using a thick gauge aluminum for strength and the diamond tread provides traction for secure stepping in all kinds of weather.

All necessary mounting hardware is included.

Flexy-Flares™ ... To Cover Those Wide Tires

Flexy-Flares™ provide protection from mud, dirt, gravel and salt. They are an attractive styling addition to any truck. Flexy-Flares™ are a necessity in many states where wide tires must be covered by a fender. Constructed from the finest quality EDPM synthetic rubber, they won't crack or peel in cold weather or droop in high temperatures. These heavy-duty flares use a wire insert on the outer edge for extra strength and added rigidity. The exclusive built-in curvature allows the flare to fit the fenderwell without wrinkles or buckling. Flexy-Flares™ extend your fenders 3" and come with complete hardware packs for easy installation. **Sold As Set Of 4**

Fiberglass Rear Valance ... Completes The Aerodynamic Look Of Your Truck

29-5238

The Fiberglass Rear Valance mounts below the tailgate of your truck to complete the aerodynamic look. This easy-to-install valance was designed on the truck to give you a perfect fit. Comes in an easy-to-paint gelcoat white smooth finish. The mounting hardware is concealed by the valance for a smooth look. The valance also features a recessed license plate holder. Check your local bumper laws before ordering. Because of the nature of fiberglass, rear valance may need sanding and fitting.

Sliding Rear Windows ... Easy Single Hand Access

Sliding Rear Windows are self-latching for safety and security. The rocker design enables you single hand operation to open or close the window and still keep one hand on the wheel. Premium pile weatherstripping keeps the elements out and provides you smooth sliding operation. The contoured frame is designed for a secure fit and won't obstruct your rear view mirror.

Bed Mat And Tailgate Mat Protect Your Truck

Protect your truck bed against dents, scratches and chemical spills while helping reduce dangerous load shifts. This rugged Bed Mat is virtually indestructible and made with 3/8" or 1/4" thick cord-reinforced rubber for optimum tear strength. Also available is the Tailgate Mat made from the same durable cord-reinforced rubber as the Bed Mat and provides excellent protection from dents and scratches during loading and unloading. Both Mats can be easily installed and removed. Requires minimal maintenance; cleanup is easy with soap and water.

The smooth, raised ribs running lengthwise permit easy loading and unloading. The knobby underside promotes aeration and drainage to keep your truck bed dry, helping to prevent rust and mildew. A raised border around the perimeter of the mat improves appearance and definition. This is a custom molded mat with no trimming necessary.

Tonneau Covers Protect Your Cargo

A **Tonneau Cover** is the most economical way to protect your cargo. The heavy-duty vinyl cover keeps your valuables out of sight. The black enameled frame clamps to your truck bed so there's no need to drill any holes. The reinforced corners on the vinyl keep the cover in great shape for years to come. Smooth, aerodynamic profile improves gas mileage and saves you money.

Tonneau Covers use special frame adjusters to compensate for weather conditions. If the cover is snug, remove frame adjuster for a perfect fit. Stainless steel snaps on frame are preset for easier snapping of cover.

Special contour aluminum frame rails flex to mold perfectly to the individual shape of your truck's bed. The tubular supports add strength and durability to aid in shedding rain and snow. They come with a full 5 year limited warranty on the vinyl. Aluminum frame rails are covered by a limited lifetime warranty.

Hinged Tonneau Cover design allows you to unlatch and lift the tonneau cover which creates full access to the bed without unsnapping the entire cover. The quick release pins make removal easy.

Rail-Guards Provide Protection From The Elements For Your Truck's Bed Rails

Rail-Guard can also be used on running boards, rocker panels and in other applications where an attractive protection strip is needed. Rail-Guard Set is a 22 foot roll of 3-3/4" wide vinyl for bedsides and tailgate with a 6 foot roll of 1" extrusion for the front bed panel. Tailgate Guard is a 6 foot roll of 3-3/4" material. Must be sized and cut to fit.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL

Spitshine Tire Black ... By ColorBond

ColorBond Spitshine Tire Black is a specially formulated paint designed to restore a military shine to faded and scuffed tires.

Easy to apply, simply clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Then mask the wheel or rim and apply in light coats.

- Spitshine is not a clear silicone dressing and is not greasy or tacky like other tire dressings that attract unsightly dirt and dust.
- Tires keep their shine for a minimum of two months. Simply reapply Spitshine Tire Black if you scuff your tire or just want to brighten the look.

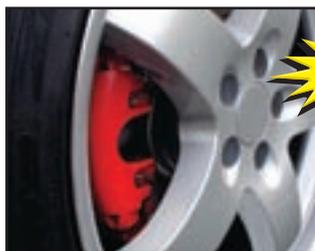

ColorBond Prep/Cleaner is a fast drying, non-solvent, multi-surface cleaner.

This is the most complete and easy-to-use paint kit available and includes everything necessary for a professional application. Applies easily as a brush-on to add a great styling touch and outstanding protection to your calipers or drums. System includes two-part paint, high performance brake cleaner, mixing can, stirrer, application brush and a color decal.

- Two-part paint offers extremely high heat resistance, up to 950°F.
- Brake fluids, road salt, oil and even loose gravel can't harm the durable high-gloss finish.
- Easier to apply and dries much harder than any spray-can product.
- Easy brush-on application does not require caliper or drum removal.
- Oil and chemical resistant high-gloss finish.
- Seals and protects with style.
- One system will cover up to four large calipers or two drums.

17" And 20" Wheels

Whether it's a project truck or daily driver, these new 12 Spoke (6 split-spoke) design alloy wheels will give it the perfect custom look. They feature one-piece cast aluminum construction and triple chrome-plated finish. Center caps included. Requires use of lug nut #29-0596, sold separately, see below. 13/16" thin wall socket required when installing or removing chrome lug nuts from chrome 12 Spoke Wheels.

Over-Size Wheel Fitment

Over-Size Wheel fitment dictates use of lower profile tires for proper clearance. Low profile tires can increase cornering and handling stability while decreasing ride quality and rim protection.

Over-size wheel/tire combinations are permissible if kept within +2% or -3% of OE tire diameter. Exceeding those guidelines, plus or minus, may require computer recalibration or additional components to restore proper vehicle performance. Potentially effected computer-controlled vehicle operating systems are the ABS, automatic transmission, speedometer and traction control systems.

Use of larger diameter wheels and tires may increase stopping distance and cause premature wear on brake components. All applications listed pertain to OE brake components only. Always check for caliper-to-wheel interference when upgrading brake system.

Always test fit wheels on both the front and rear of vehicle BEFORE mounting tires on the wheels. Once tires are mounted and vehicle is on the ground, check for rub on all four wheels. Turn front wheels from stop to stop, left to right.

Guardian Truck Covers ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive !

GUARDIANTM
TRUCK COVERS

Guardian universal fit truck covers provide protection from acid rain, dust, tree sap, industrial pollutants, harmful UV rays, animal traffic and bird droppings. Cover is not affected by temperature extremes. Fabric will not stretch or shrink and naturally resists rot and mildew. Elastic is sewn into the front and rear hems to ensure a snug fit. Truck covers will actually pay for themselves by reducing the number of times you'll need to wash and wax your vehicle.

In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Start protecting your truck's finish from the elements, call or go online and order your truck cover today.

Guardian offers three levels of vehicle protection, all economically priced; choose the cover that best fits your needs.

Guardian 1000 – Designed For Moderate Weather Conditions

- Durable fabric has the look and feel of more expensive covers.
- Water resistant, yet breathable.
- Double-stitched seams for maximum strength.

Chromed Billet And Leather Steering Wheel ... The Best Of Both Worlds

Manufactured from billet aluminum and then chromed for a mirror finish and shine. 14" wheel with four slotted spokes and a 3-3/4" dish. The front of the rim is wrapped in a single piece of leather and then mounted to the wheel so there are no seams or stitching in the leather. The back of the wheel is chromed billet with contoured finger notches for a sure grip. Comfort and style of leather on the front with the solid feel and look of billet on the back. This wheel includes a chromed billet installation kit and horn button that covers all mounting bolts for a sleek smooth finish. You get everything you need to mount this wheel on your truck in one kit.

Custom Styling Ring ... Adds Style To Airbag Steering Wheels

37-8317

The Custom Styling Ring makes it easy to add style to airbag steering wheels. They are beautifully crafted and formed to exactly match the contours of your factory airbag steering wheel rim and spokes.

The Styling Ring installs easily over the factory airbag steering wheel and instantly transforms its ordinary appearance into a high-style, customized steering wheel. It accents the airbag steering wheel while retaining all of the airbag safety features.

Styling Rings are molded from a high-strength composite material with a photolithographic process that offers an extremely realistic detailed appearance. US Pat #5,761,968.

1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

Installation Tip: Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

There are times when carpeting is not the appropriate floor covering for a vehicle. If your truck spends most of its time in a cow pasture, on a construction site or playing in a mud bog, then one of these heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats is your wisest choice. 1/8" thick industrial Polyvinyl is resistant to moisture and temperature; therefore, it will not dry rot or crack and lasts years longer than rubber.

These mats are easy to clean and extremely durable. They protect your interior from water, snow, mud and most chemicals including gasoline, oil and battery acid. MIP Mats are vacuum molded from the original floor pan to cover the entire floor making installation easy. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the front passenger area to provide a higher level of insulation against heat, cold and road noise.

All MIP Mats are only available in black.

Rear Floor Liner

Molded for an exact fit from a patented rubberized thermoplastic material, guaranteed not to crack or break. The raised outer rim can trap up to two gallons of liquid. The driver's side mat features an extra-thick heel pad.

These liners are designed to conform to the shape of your vehicle's floor and the anti-slip back keeps the mat in place. Cleanup is easy, too. Just wipe up small areas with a cloth or remove the mat and hose it off.

Heavy-Duty Floor Mats ... Easy To Clean

Rear Floor Mats

Front Floor Mats

These mats are easily cleaned and available in black, gray or tan. The 3/8" tall ridges keep your shoes and pant cuffs above the moisture and debris.

The raised outer rim traps water, mud, snow and other harsh elements giving you year-round protection for your vehicle's carpet. The extra-thick heel pad on the driver's side is designed to offer heel protection and longevity in this high-wear area. Guaranteed not to crack or break.

Multi-Purpose Heat / Sound Insulation

38-2829

38-0798

38-0716

38-0792

Uses Space Age technology to insulate against heat, cold and noise. This 4-foot x 6-foot sheet is made of 3/8" sound deadening fiber padding. Highly reflective aluminum is bonded on one side to achieve 97% reflection of radiant heat. Works great under the hood, under your carpet or rubber mat, above headliners, behind door panels, on the firewall and behind the seat.

This Multi-Purpose Insulation has numerous household uses. Save on your gas and electric bills by insulating your water heater, pipes, garage doors and attic. Use this Multi-Purpose Insulation with Sound Control Mat, see page 98, for maximum sound deadening. Call or go online and order both today!

Molded Carpet ... Fits And Looks Like Original

Chevrolet S10 1982-03 GMC S15 Sonoma 1982-03
 Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

Cut pile carpet is molded from the original floor pan for a perfect fit that covers the entire floor. It's made from 100% nylon with an OE type heel pad. The heavy 36 ounce jute padding under the front passenger area helps insulate against heat and reduces road noise.

Shiftrod And Steering Column Holes Are Not Pre-cut

29-8710-LL

1982-93 Pickup / 1983-94 Blazer & Jimmy Carpet Colors

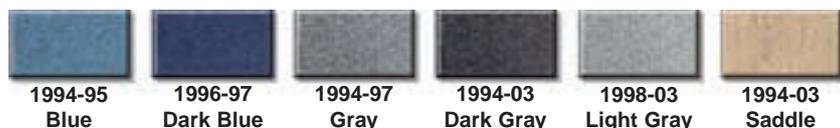

Color coordinated original style heel pad is attached and an easy-to-install dimmer switch grommet is also included. The color coordinated vinyl binding helps prevent fraying and adds the finishing touch.

Sound Control Mat ... Hear And Feel The Difference

Sound Control Mat is scientifically designed to absorb and dissipate vibration created from the engine, road and structure of your vehicle to dramatically reduce noise. Cover as little as 25% of the area for a

noticeable reduction in noise; increase coverage for even more noise control. Works best when applied in the following order: outer door skins, floor pans, firewall, behind dash, rear panels and cab roof.

Just peel and stick; easy to cut and bend the 1.5mm thick sheet to conform to contoured surfaces and shapes with no preparation needed. For maximum noise reduction use with the Multi-Purpose Heat and Sound Insulation, see page 96. Call or go online and order both today!

38-2817	SOUND CONTROL 12" X 23" SHEET	18.69	14.95

ColorBond ... Now You Can Be Sure All Your Interior Colors Match

The unique chemical proprietary process will form a molecular bond in 45 seconds and allow you to create an OE finish. No mixing! Simply sprays on to penetrate the surface and permanently bonds and seals in color. Dries to the touch in 45 seconds and forms a complete bond in 10 minutes. UV stable and color fast ... you can change or match the color of your interior without the worry of future cracking, fading, flaking or peeling.

ColorBond is so effective that it is OEM approved and several major car and boat manufacturers use it for repair and replacement. ColorBond has a Semi-gloss finish. Perfect for Vinyl, Leather, ABS Plastic, PVC, Polyurethane, Polycarbonate, Polypropylene, Acrylic, Lexan, Fiberglass and recycled Plastics. The original grain pattern is never altered or hidden; no matter how many times ColorBond is applied, the grain pattern is still clearly visible. It will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of the surface. Each 12 ounce can covers 8 to 10 square feet.

Because ColorBond becomes part of the surface it is applied to, any flaking or cracked original paint must be removed to enable ColorBond to penetrate and bond to a clean, stable surface. It is also essential to thoroughly treat/clean with ColorBond Prep/Cleaner to remove any build-up of dirt, grease or chemicals.

If you are uncertain what type of material you are applying ColorBond to, test a small section in an inconspicuous location first. ColorBond will not cover or repair cracked or torn material.

ColorBond is not paint, but a revolutionary new compound that changes your surface color permanently.

ABS Headliners ... The Long Term Solution To Sagging Headliners

Chevrolet S10 1982-03 GMC S15 Sonoma 1982-03
Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

The original headliners are made of pressed foam board. Over time the headlining material separates from the foam board and falls down. Unfortunately, much of the time the foam board has deteriorated beyond repair. These ABS plastic backed headliners are a simple cost effective long-term solution to this problem.

Headliners are vacuum formed ABS plastic covered with original type foam backed cloth materials in original type colors. Their fit and function is as original.

Highliner With Built-In Speakers ... For A Stereo System Above The Rest

This Highliner adds a dynamic custom-styled headliner to your truck's standard cab by utilizing four uniquely placed speakers. The placement of the four built-in speakers guarantees true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. The radio console is designed to accept optional aftermarket stereo cassettes, CD players or CB radios.

The Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of your truck's interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which will handle up to 10 watts of power. Also features high-temperature resistant voice coils for a clean, crisp sound. Highliners come with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and complete instructions. See why they say, "Hearing is Believing."

Shelf-It™ ... The Ultimate In Organized Convenience

Shelf-It™
 Finally, there's an easy way to organize your truck. Shelf-It™ is ideal for storing mobile phones, sunglasses, garage door openers, maps and any other valuables you want to keep out of sight, but always within reach. It is made of heavy-duty extruded aluminum and features a durable, soft, velvet-like finish. Shelf-It™ is easy to install; simply remove your sun visors and install the mounting brackets in the existing sun visor holes. Mount Shelf-It™ to the brackets and attach the sun visors to the Shelf-It™ and you're done; no drilling required. Shelf-It™ will install and function on models equipped with dual visors (two sun visors on each side) if the accessory visors are not re-attached.

Shelf-It™ will not work on models with overhead console.

Deluxe-It™
 Add even more convenience to your Shelf-It™ by purchasing a Deluxe-It™ Kit. The Deluxe-It™ Kit features a black console with a map light, three separate compartments, cargo nets and dual 12 volt power supplies for charging your cell phone or powering accessories when attached to a Shelf-It™. It's the ultimate in organized convenience for your truck. The wiring harness is included. Call or go online and order yours today!

Fuel Pressure Regulator Eliminates High-End Power Fade

For 5/16" Fuel Line Applications

For 3/8" Fuel Line Applications

This chrome plated, adjustable Fuel Pressure Regulator allows you to fine tune your fuel flow which helps to eliminate high-end power fade. Proper metering of fuel while maintaining a constant desired fuel pressure ensures better low and high rpm performance.

Fully adjustable from 1/2 to 5-1/2 psi in 1/2 psi increments. Includes 5/16" and 3/8" threaded nipple ends, flexible fuel lines, clamps and instructions. For use on carbureted systems only.

AIRAID Intake Systems ... Replaces Your OE Airbox For More Power

Unique intake tract and filter is substantially less restrictive than OE airboxes. Airflow is dramatically improved up to 20% with these systems. The higher your engine's airflow, the greater its efficiency and horsepower output. Dyno-testing shows gains as high as 8 horsepower, with no other changes or modifications.

The finest materials and production methods are used such as mandrel-formed larger diameter tubing.

29-4851 AIRAID INTAKE 4.3L 96-04 (1) 249.94 199.95

Powder coating inside and out provides greater flow and protection.

Filters are washable, reusable and last the life of your truck. Kits are easy to install with no drilling, cutting or fabrication, usually in 30 minutes or less.

29-4851

K&N Performance Filters Fuel Injection Performance Kits

The Fuel Injection Performance Kit Generation II FIPK2 is K&N's ultimate performance product, designed to increase power by as much as 10%. K&N's molded intake tube replaces your vehicle's restrictive factory air filter and the entire air path to the engine.

K&N intakes are designed to dramatically reduce intake restriction as they smooth and straighten airflow and include a custom heat shield to provide cooler air. This allows your vehicle's engine to inhale a larger volume of air than the OE air filter assembly. More air means more usable power and acceleration throughout the engine's rpm range. The filters on these kits are washable and reusable.

10 Year / Million Mile Limited Warranty

29-4873

Throttle Body Spacer

Throttle body spacers improve performance and fuel economy. The throttle body injector causes the fuel to travel further thus improving fuel dispersion and atomization. Improving atomization makes it easier for the fuel to ignite and burn thoroughly. With a Throttle Body Spacer you get increased throttle response, a 10-15% improvement in torque and gas mileage increase of up to 8%.

Easily installs between your intake manifold and throttle body injection unit. Will not affect computer function. This is the easiest and least expensive way to get more power out of your engine.

AIRAID POWERAID Throttle Body Spacers ... Enhance Power And Fuel Efficiency

38-4320

The POWERAID Throttle Body Spacer was developed to enhance mid-range power, torque and fuel efficiency. The unique dyno-proven "Helix Bore" of the POWERAID Spacer causes a spinning action of the incoming air-charge as it passes through the throttle body. This extremely beneficial air charge is carried all the way into the combustion chamber, producing a super-atomized mixture, which produces tremendous power gains in mid-range power and overall efficiency. POWERAID Spacers are manufactured from aircraft quality 6061-T6 aluminum billet. Each spacer includes all the necessary gaskets, hardware and precision brackets to maintain proper throttle and cruise control geometry. A POWERAID Spacer is the ultimate intake system when combined with an AIRAID intake.

Performance Throttle Bodies More Horsepower Right Out Of The Box

**Bolt On
Up To
25% MORE
Horsepower**

Increases in fuel efficiency and horsepower are based on a truck operating at factory specs. Increases may vary according to the condition of your truck and driving habits. Compatible only with factory electronics and intake manifold.

HOLLEY bolt-on performance replacement Throttle Bodies provide more horsepower and torque right out of the box. They feature larger throttle bores than stock, they flow more air and fuel than factory units, increasing horsepower up to 25%. Fuel efficiency and low end torque improve at the same time.

29-4877 2 barrel - flows 400 CFM. 1.68" throttle bore. 48% increase over stock. 2.8L 86-89 (1) 874.94 699.95
29-4878 2 barrel - flows 670 CFM. 2" throttle bore. 42% increase over stock. 4.3L 88-91 (1) 874.94 699.95

Note: "A" Models without production option code CTF.

3 Ways To Lower Your Truck

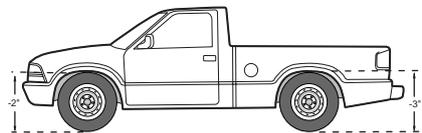

Factory Truck Stance

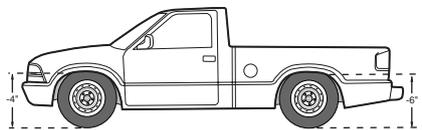

Drop is based on the original factory ride height as measured from the top of the wheel arch to the ground. Original ride height is approximately 2" higher in the rear. The stance (difference in height between the front and the rear) is not affected when you lower the front and rear an equal amount. To make your truck look level you need to lower the rear approximately 2" more than the front.

LOWER - Lower your truck with shorter Drop Coil Springs in the front and Lowering Blocks in the rear. Use Lowering Blocks that are 2" shorter than the front drop to level out your truck.

DROP - Drop the front of your truck with Drop Spindles and the rear with Lowering Blocks or Leaf Springs. Drop Spindles are the best way to lower your truck because they do not affect other suspension components. Original front suspension geometry and ride quality are maintained.

SLAM - Combine Drop Spindles and Drop Springs to slam the front of your truck, and combine Lowering Blocks and Drop Leaf Springs to slam the rear. We have the parts you need to slam your truck for a great look and a smooth ride. Take your truck to the maximum "lowness".

Drop Chart

Use this chart to order the parts you need for the desired drop.

Year	Front/Rear Drop	Spindle Set	Front Springs	Lowering Blocks	Rear Springs

Lowering Block Kits

For those on a budget Lowering Block Kits are the quickest and most economical way to lower the rear of your truck. Use just the Lowering Block Kit for 2" or 3" drop, or lower it further by combining the Block Kit with a Drop Leaf Spring Set. For an alternative way to lower the rear of your truck see the Drop Leaf Springs below.

29-5996

Belltech Suspension

With over 20 years experience in suspension design and manufacturing, Belltech is recognized as a leader in sport truck suspension. Belltech components are designed to work together as a complete system so your truck rides as good as it looks.

Belltech Lowering Kits come with everything you need to lower your truck including front and rear Nitro Drop shocks. These kits will lower the front of your truck 2" and the rear of your truck 3".

Nitro Drop Shocks are high-quality nitrogen gas filled performance shock absorbers engineered specifically for your truck. They feature chrome plated centerless ground carbon steel shafts, viatom seal, tapered eye rings and polyurethane bushings.

Coil Lowering Kits

Coil Lowering Kits use coils to lower the front of your truck. Each Belltech coil is made from chromium alloy steel and is wound, shot peened and powder coated. Built to exact specifications to assure the proper ride height, ride quality and long life. Kits include Coils, Lowering Block Kit, Nitro Drop Front and Rear Shocks.

Dropped Spindles

Belltech Dropped Spindles improve the handling and maintain factory ride quality. Spindles lower the front of your truck by 2" and maintain critical suspension geometry eliminating excessive ball joint, shock and tire wear. Combine with the Coil Lowering Kit for a total drop of 4" for the front of your truck. Each spindle is built from high-strength ductile iron, providing the structural integrity to meet and exceed all factory specifications.

Heavy-Duty Gas-Charged Shocks

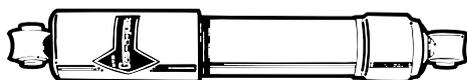

Don't forget! Shocks are an often overlooked and very important part on your ride. Are you experiencing that embarrassing bounce when you hit a dip or bump? Do you experience annoying brake dive or acceleration squat? Limit that unsafe roll or sway when cornering! Regain control of spring and suspension movement. Replace those worn out, leaking old shocks with these affordable Heavy-Duty (HD) Gas-Charged units. Give yourself and your ride a safer tomorrow, today! Keep those tires on the road!

KYB Shock Absorbers ... Driving Control, Even Ride And Performance Handling

GR-2 Gas Shock Absorbers: Features lower pressure for riding comfort with improved handling and response only gas shocks can provide at an economical price. The economical way to step up from hydraulic shocks to the quality ride and control of gas.

Gas-A-Just Shock Absorbers: Features higher gas pressure to provide unsurpassed control on even the most demanding roads. Eliminates the age old problem of performance fade by eliminating aeration and foaming, a problem with other shocks that use two-tube construction that allows air to mix with fluid.

Performer IAS Shocks ... The Ultimate Performance Shock

29-5180

29-5181

Only Edelbrock Shocks feature Ricor's patented Inertia Active System (IAS). This exclusive design switches instantly between a firm and soft circuit for superior handling and a smooth ride. The patented IAS eliminates the compromise inherent in other designs for a shock that is soft on rough roads and firm on smooth roads. This keeps the tires on the ground and the chassis stable.

With Edelbrock Performer IAS Shocks you get the best of both worlds, superior handling and maximum comfort.

- The patented IAS Valve combined with high pressure gas charging provides the best ride and handling.
- High pressure gas mono-tube eliminates oil foaming and dissipates heat more effectively for increased seal life and durability.
- Specifically calibrated and tested for each vehicle.
- Large 46 mm piston for more consistent damping.
- Nitro Steel piston rod will not chip or flake like chrome rods.
- Seal and low friction piston rod bearing for long life and no leaks.
- Rolled tube ends and heavy-duty robotic and projection welds for extreme accuracy.

Body Lift Kit ... Makes Room For Larger Tires

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
29-6038	2" BODY LIFT KIT	PICKUP	94-97 (1) 224.94	179.95
29-6039	2" BODY LIFT KIT	PICKUP	98-01 (1) 374.94	299.95
29-6040	3" BODY LIFT KIT	BLZ JIM	83-94 (1) 187.44	149.95
29-6041	2" BODY LIFT KIT	BLZ JIM	95-97 (1) 224.94	179.95
29-6042	2" BODY LIFT KIT	BLZ JIM	98-00 (1) 374.94	299.95

Read This: Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.

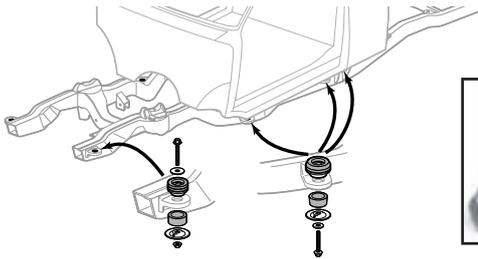

29-6040

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension.

Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi and plated grade 5 hardware.

Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

Polyurethane Cab Mount Bushing Set

29-5261

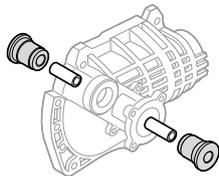

29-5260

Aluminum cab mounts are too harsh for street use and tend to break, while original rubber mounts are so soft they crack and crush so badly they often fall off. These specially formulated polyurethane cab mounts combine the best qualities of both; they're soft enough for a smooth ride, yet rugged enough for the most demanding road. A steel ring is molded into the end for durability.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
29-5260	BUSHING SET-CAB MOUNT 12PCS STD CAB	82-93 (1)	87.44	69.95

114 SEALANTS / ADHESIVES / ACCESSORIES

Sealants And Adhesives

Loctite Ready Gasket makes leak-proof gaskets for temperatures from -75°F to 450°F in an instant. Blowout resistant, sensor-safe and outperforms pre-cut gaskets. Ideal for sealing differential covers, valve covers, water pumps, thermostat housings and more. Available in a 4 ounce can.

38-0767 READY GASKET-4 OZ CAN 16.19 12.95

Loctite Viper Lube is a high performance synthetic grease that provides superior lubrication and protection on bearings, hinges, latches, linkage, seat tracks, slides, springs and other automotive applications. Available in a 10.1 ounce aerosol can.

38-0768 SYNTHETIC GREASE 6.19 4.95

Loctite Spray Adhesive dries clear with superior bonding strength. Unique formula resists water and humidity. Excels at attaching upholstery cloth, carpeting, insulation and has many other uses. Available in a 10.5 ounce aerosol can.

38-0798 SPRAY ADHESIVE 8.69 6.95

Loctite Rubberized Undercoating is a professional blend undercoating that seals, protects and insulates frames, body parts, wheel wells and more. Available in a 16 ounce aerosol.

38-0766 RUBBERIZED UNDERCOATING 7.44 5.95

Loctite Threadlocker locks and seals nuts and washers while preventing parts from loosening due to vibration. Protects threads from corrosion. Available in a 6 ml tube.

38-0771 THREADLOCKER-6 ML TUBE 8.69 6.95

Loctite Super Weatherstrip Adhesive is fast drying, high strength, waterproof and is great for bonding all types of truck parts. Dries black. Available in a 5 ounce tube.

38-0792 SUPER ADHESIVE-BLACK 7.44 5.95

Loctite Copper Anti-Seize Stick provides a shield against high temperature seizing and galling of any stud, bolt, flange or other fasteners up to 1800°F. Perfect for spark plug threads in aluminum head applications, exhaust manifold bolts, thermostat housing bolts, brake pad backing plates, oxygen sensors and other mated parts. Available in a 20 gram stick.

PART	DESCRIPTION	LIST	SELL
38-0765	COPPER ANTI-SEIZE STICK	7.44	5.95

Loctite Pipe Sealant locks and seals threaded fittings and resists leakage, vibration loosening, moisture and hydraulic fluids. Lubricates threads for easy assembly and disassembly. Available in a 6 ml tube.

38-0772 PIPE SEALANT-6 ML TUBE 6.19 4.95

Loctite Dielectric Grease increases performance and extends the useful life of bulbs, lamps and other electrical components by protecting them from moisture, salt, dirt and corrosion. Eliminates voltage leaks and arcing. Also prevents spark plugs from fusing to boots. Required for modern high-energy ignition systems. Lubricating properties ease in disassembly process. Protects rubbers, plastics, ceramics and metal surfaces. Use on any and all bulbs in your truck, as well as fuses, battery terminals, ignition components and other electrical connections.

38-0770 DIELECTRIC GREASE .33 OZ 6.19 4.95

Loctite Windshield and Glass Sealant is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals. Available in a 1.35 ounce tube.

38-0789 SILICONE SEALANT 4.94 3.95

Vinyl Edge Sealer Pen can be used on all vinyl decals/graphics and on the ends of adhesive chrome body moldings that will be exposed to the elements. The pen is filled with .3 ounces of ultraviolet light-blocking, fast-drying, clear acrylic sealer. It features a wedge applicator tip for a smooth, even application and includes a replacement tip so that it can be used over and over. It will also protect edges from damage caused by physical contact such as polishing/waxing and washing.

PART	DESCRIPTION	LIST	SELL
38-0921	VINYL SEALER PEN .3 OZ	16.19	12.95

Loctite Disc Brake Quiet Stick is specially formulated to dampen brake pad vibrations and eliminate squeaking and noise. Tested and proven to outperform sticky, messy traditional solvent and water-based products. This unique wax-like stick forms a water-resistant, high-temperature film that will absorb vibration and quiet disc braking. Available in a 9 gram stick.

38-0769 BRAKE QUIET STICK 8.69 6.95

3M™ VHB™ (Very High Bond) Adhesive Tape is a high-performance, double-sided adhesive tape for all types of automotive accessories, both interior and exterior. In many cases, this tape can replace rivets, spot welds, liquid adhesives and other permanent fasteners so surfaces remain clean and smooth. The tape's foam core allows it to expand and contract with temperature changes and to conform to surface irregularities and gaps. 3M™ has rated this product to be suitable for most environments with temperatures ranging from -95°F to +194°F. Package includes three 1" x 12" strips.

38-0788 3M ADHESIVE TAPE STRIPS 3.69 2.95

Remote Starter Switch

The Remote Starter Switch will allow you to start or crank your engine without the need for an additional person. It's ideal for conducting compression tests or bumping your engine onto top dead center timing marks for valve, distributor or camshaft adjustment work. It's designed with extra long, heavy-duty Neoprene leads, which allow you to reach all around your engine. It also features a power tool type trigger switch and grip. Leads have alligator clips with insulated boots.

38-1208 REMOTE STARTER SWITCH 24.94 19.95

Fumoto Engine Oil Drain Valve

Makes oil changes quick, clean and easy, saving you valuable time. US Patented Pat# 4078763.

There is a better, easier way to drain your engine oil. With an Oil Drain Valve in place you can quickly drain your oil by simply lifting the lever and turning it 90°. Return the lever to its original position and the valve is closed and locked, double sealed to prevent leakage. No tools are needed eliminating the danger of stripping threads, and it's easy to install. Replace your standard drain plug with this spring assisted ball valve.

4x4 Posi-Lok Positive Axle Engagement ... Not Just An Accessory, A Necessity

Cure the slow to no-engagement Blues! Works like hubs with full control from inside the cab without stopping, in any temperature. Positive manual control not prone to failure like the OE vacuum operated system. Reduces front differential wear and right axle breakage. Will not disengage when the ignition is turned off (like the OE design). 2 wheel drive low range benefits from bind free steering AND high rear axle torque. The failure prone vacuum actuator operated system is replaced with the cable operated 4x4 Posi-Lok System.

Easily installed in one to two hours with basic hand tools. No internal axle or differential work required. US Pat #5,605,215.

29-5170	4X4 POSI-LOK	4WD PICKUP	83-93 (1)	174.94	139.95

Performance Sway Bars Give You Bolt-On Handling And Control ... Drive Faster Through Turns With Improved Handling

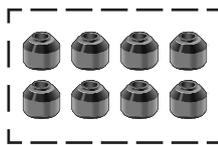

% Increase In Resistance

Performance Sway Bar	1-1/8"	511%	274%	130%
	7/8"	186%		
Stock Bar	3/4"	7/8"	1-1/16"	

If your truck is not balanced or stable the front end of your vehicle will not hold the road on a curve as well as the rear and vice versa. When your truck leans on curves it throws the weight outward and tilts the front wheels. This destroys the truck's road holding ability causing the wheels to "drift" or "creep" sideways in the turn, thus leading to excessive tire wear.

Underdrive Serpentine Belt Pulley Set

Unleash extra horsepower by simply changing pulleys! Electrical and cooling systems run properly while your engine runs easier. Black painted finish, CNC-machined billet steel pulley sets produce a 25% underdrive for an increase of up to 20 horsepower. Two-piece set includes alternator and crankshaft pulleys. *Underdrive pulleys often require the use of a shorter serpentine belt. Check with your local car parts store.*

**Bolt On
Up To
20 MORE
Horsepower**

Increases in horsepower are based on a truck operating at factory specifications. Increases may vary according to the condition of your truck and driving habits.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
38-4390	UNDERDRIVE PULLEY SET-2PC 4.3L	88-96 (1)	124.94	99.95

It provides approximately 600 rpm more stall speed to give you more torque on initial acceleration without sacrificing normal highway operation. For best performance, it is recommended that this converter be used with a final gear ratio lower than 3.70 with stock diameter tires. The Pro Street Torque Converter provides exceptional value for the performance-minded street enthusiast.

38-4747

By properly installing anti-sway bars you can give your truck the balance and stability it needs in curves, passing situations or uneven surfaces. Sway bars are made with high torque resistant steel with forged bar ends, not welded tips. There are no metal-to-metal fittings to cause wear and noise. Now you can give your Chevy Truck the handling performance of a top of the line "Big Bucks" model and it costs less than the price of a new set of tires.

Urethane End Link Kits are extremely hard bushings that connect to the sway bar ends. Increases lateral rigidity of your sway bar.

Cat-Back Performance Dual 2-1/4" Exhaust System With Resonator Tips

This Performance Exhaust System replaces your stock muffler and exhaust allowing you to increase performance and maintain your catalytic converter. The straight-thru design reduces back pressure for increased horsepower, more low-end torque and better fuel economy.

This system is made with modern tube benders utilizing mandrel bends, ensuring each bend is smooth flowing, increasing exhaust flow by up to 20% over stock systems. Manufactured from 16 gauge aluminized steel that lasts up to twice as long as conventional steel systems.

System attaches to the stock converter exit pipe for a clean and simple installation. System fits both long and short bed trucks: You will need to cut your existing pipe to the appropriate length. Easy bolt-on installation means there is no welding required. Hangers, fasteners and steel clamps are included.

Dual 2-1/4" exhaust pipes exit the rear of your truck. The 3-1/2" diameter resonator tips replace the original muffler and give your truck that deep performance tone, without being too loud.

**Exceptional Sound
With Increased
Horespower**

Available in black powder coat blunt tips or stainless steel angle tips.

Replacement Catalytic Converters

Chevrolet S10 1982-99 GMC S15 Sonoma 1982-99
 Chevrolet Blazer 1983-99 GMC Jimmy 1983-99

Limited Manufacturer's Warranty

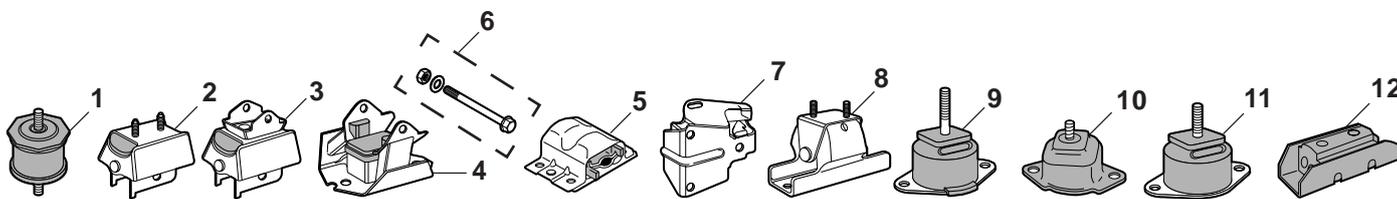

In August 1986 the U.S. Environmental Protection Agency issued strict new guidelines regulating aftermarket Catalytic Converters. Our Replacement Catalytic Converters are designed and manufactured to meet all EPA emission requirements. With many states getting more stringent with their emission testing, we are pleased to be able to offer you a reasonably priced, proven and tested product that is legal for road use in all 50 states and Canada.

Heater Components

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
 Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

Blower Motor/Fan Note: Replacement blower motors and fans are "Bolt-on" type; the fan is attached to the motor shaft with a nut. Many of the original GM fans and motors were a "Press-on" type and cannot be used with "Bolt-on" fans and motors, both the motor and fan must be replaced if your original configuration was "Press-on". (All replacement motor shafts are 5/16" diameter.)

Radiators

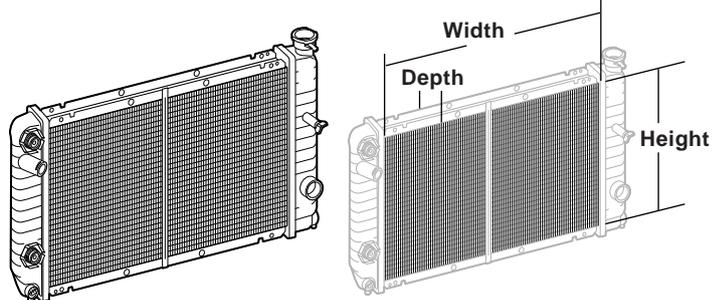

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

Radiator Core Size: The height and width of the central part of the radiator, between the tanks and the side pieces. Consists of parallel rows of tubes and fins.
Rows: The number of rows refers to the number of parallel rows of tubes in the core.

Engine Oil Coolers: Some models were originally equipped with an Engine Oil Cooler mounted in the radiator. On models not originally equipped with an Engine Oil Cooler, the oil cooler portion of the radiator is simply not used.

Part #	Radiator Core Size

Electric Cooling Fan Kit Keeps Your Engine Cool

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

Electric Cooling Fan - Now you can keep your engine cool no matter what the traffic situation by buying an Electric Cooling Fan. Efficient 8-blade fan and high performance motor for maximum air delivery; fan blade and shroud are constructed of glass filled nylon for strength and durability. This fan works off the truck's electrical system so it reduces engine load. Fan operates only when needed with #38-4894 Adjustable Thermostat. Includes all necessary mounting hardware and easy-to-follow instructions.

Adjustable Thermostat - Set fan temperature to suit your conditions. Adjustable from 32°-248°F.

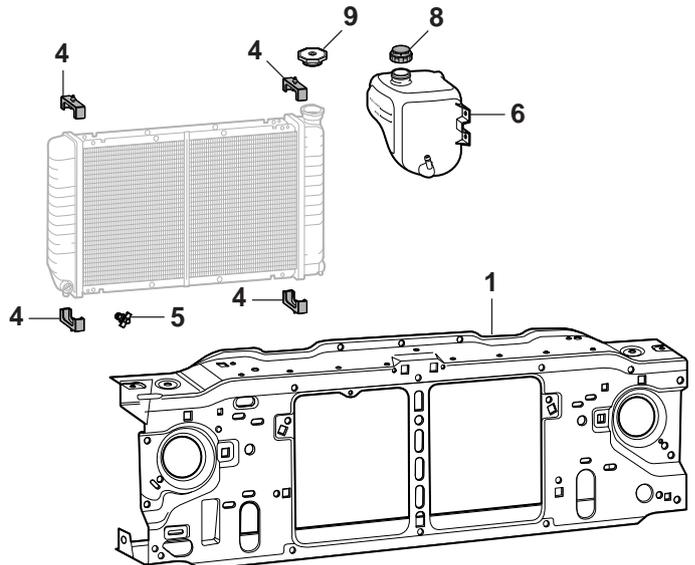

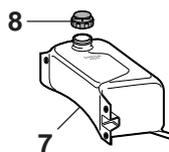

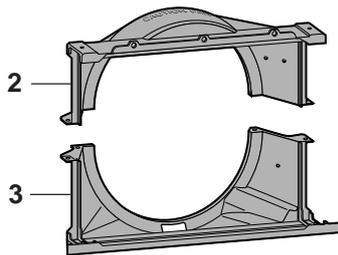

Quick Re-Installation Kit - gives you everything you need to reinstall the cooling fan should you ever have to remove it for oil cooler access or radiator repair.

Blower Motor/Fan Note: Replacement blower motors and fans are "Bolt-on" type; the fan is attached to the motor shaft with a nut. Many of the original GM fans and motors were a "Press-on" type and cannot be used with "Bolt-on" fans and motors, both the motor and fan must be replaced if your original configuration was "Press-on". (All replacement motor shafts are 5/16" diameter.)

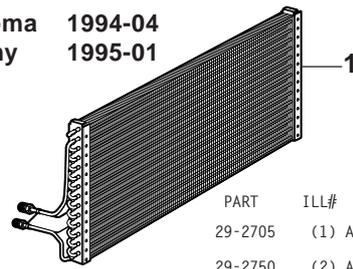

A seized AC compressor renders your vehicle inoperable. Alleviate untimely and expensive air conditioning repair bills with an A/C bypass pulley. Remove A/C compressor, install A/C bypass pulley and original size belt and then you are back on the road.

Core Refund Information - A/C Compressor: A rebuildable core will have no cracks or other damage to the case or mounting locations. The drive shaft of the compressor must turn at least three full revolutions. There must be some degree of suction and discharge pressure present, this can be checked by covering the suction and discharge ports with your fingers while rotating the compressor shaft. If it does not meet the above standards, it is not rebuildable and will not be refunded. DO NOT send a non-rebuildable core.

3-IN-1 CLUTCH KITS

Plan ahead! Pulling an engine costs money and takes time. Replace "ALL 3" clutch pieces ... Cover, Disc, Release Bearing ... at the same time. Extend the life of your clutch system thousands of miles and save yourself the repeated hassle of replacing each piece. Think about it! A 3-In-1 Clutch Kit is priced cheaper than each piece bought individually! Buy a 3-In-1 Clutch Kit and save your time and money.

Pre-filled System

Save time and labor costs by using this complete Pre-filled System. This fully bled system includes a master cylinder and slave cylinder, connected by the hydraulic line. No additional components are required. The bleed procedure on a dry system can take an hour or more. The Pre-filled System reduces installation time and eliminates complex bleed procedures.

Transmission Gasket And Filter Kits

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
 Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

Kit components may vary from illustration depending on your truck's model.

W/PS = With Power Steering
 W/O PS = Without Power Steering

A Steering Stabilizer Kit is basically a horizontal shock absorber that helps to stabilize the steering system. The kit not only helps to stabilize the steering, but can also help in the prevention of "Bump Steer", when the steering wheel jerks suddenly as a result of hitting a pothole or object in your path. These kits will also help to reduce normal wear on vital suspension pieces, and make tires last longer. This kit is especially helpful for trucks whose original equipment tires have been replaced by larger or wider ones.

Brake Master Cylinder And Power Brake Booster

Chevrolet S10 1982-93 GMC S15 Sonoma 1982-93
Chevrolet Blazer 1983-94 GMC Jimmy 1983-94

How To Identify Your 1988-1993 Power Brake Booster:

1988-93 models have a sticker affixed to the front of the booster housing. The sticker has two letters printed on it that are referred to as the stamped letters. Please order by matching the letters on your power brake booster with the correct part number.

Where To Find Production Option Label: The service parts identification label, located in the glove box, lists all production options for your vehicle. The options are represented by three character codes printed in alphabetical then numeric order.

Core Refund Information - Brake Booster: A rebuildable core will have no excessive wear. No broken, cracked or dented housings. No worn or stripped threads. If it does not meet the above standards, it is not rebuildable and will not be refunded. DO NOT send a non-rebuildable core.

Cross Drilled Brake Rotors

29-6550

Cross Drilled Rotors run cooler and reduce rotating mass. Each hole is radiused for a smooth transition at the edge of the hole to extend pad life and reduce stress. The holes allow water and gasses to escape so the pad has greater contact to the rotor. This means faster stops, less fade and improved wet weather performance. Cooler brakes also last longer and reduce rotor warping.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL

 "B" With 4-wheel ABS.

Stainless Steel Brake Hose Kit

29-6290

Brake Hose Kits feature stainless steel braided hose with zinc-plated fittings, factory assembled for installation convenience. Stainless steel brake hoses increase braking performance and reduce brake pedal travel by eliminating hose expansion common to factory rubber hoses. Each kit comes with all necessary hardware and fittings.

For 1991 there are two types of designs used to attach the brake hoses to the frame. Check your truck's current hoses before ordering to ensure you order the correct hoses.

1st Design: Hose screws to frame.

2nd Design: Hose clips to frame.

Disc Brake Proportion Valve

Chevrolet S10 1989-93 **GMC S15 Sonoma 1989-93**
Chevrolet Blazer 1989-94 **GMC Jimmy 1989-94**

29-6332

The Proportion Valve helps prevent premature rear wheel slide by limiting the amount of increase in hydraulic pressure passed to the rear brakes. This prevents the rear brakes from locking up before the full effective braking effort is produced by the front disc brakes.

Universal Windshield Washer Pump

The Universal Windshield Washer Pump adapts to any 12 volt truck. It installs in minutes with simple household tools. It is a gear driven positive replacement pump that ensures a constant spray under all conditions. All necessary parts and instructions are included.

PART	DESCRIPTION AND APPLICATION	REQD	LIST	SELL
36-4081	WASHER PUMP UNIVERSAL	(1)	24.94	19.95

Wiper Delay Switch

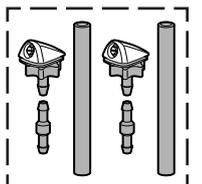

When it is sprinkling or drizzling outside, there is no need for your windshield wipers to work constantly. That's why you need a Wiper Delay Switch. Stop the annoying sound of your wiper blades scraping across your windshield. Buy this Wiper Delay Switch today and rid yourself of that annoying sound.

36-4097	WIPER DELAY SWITCH	UNIVERSAL	82-04 (1)	68.69	54.95
---------	--------------------	-----------	-----------	-------	-------

Universal Windshield Washer Nozzle Set

This Universal Windshield Washer Nozzle Set replaces existing hood mounted nozzles or can be added to the hood for a more effective spray. The kit includes two nozzles, connecting hose and key to adjust the spray. Drilling and extra hose are required on trucks not originally equipped with hood mounted washer nozzles. Upgrade or replace your old washer nozzles with this Universal Windshield Washer Nozzle Set today!

Universal Wiring Harness ... Finish The Job Right The First Time

36-3660

Universal Wiring Harness combines a prewired fuse box with the benefits of a modular approach to wiring your truck. Each major branch circuit features a connector for easier installation. The inconvenience of trying to mount the fuse panel with a huge bundle of wires attached is significantly reduced. Available in 12 circuit and 18 circuit assemblies.

Only the highest quality terminals and GXL/XLPE wire (cross-linked polyethylene, 60°F to 275°F abrasion resistant) is used which is color coded and labeled every 2" to 3". Includes conventional, GM SI internal regulated and 1-wire alternator leads. Includes HEI distributor wiring and GM column mounted ignition switch connectors. Terminals are also provided to make adapting to any aftermarket steering column easier.

Standard features include starter wiring, tachometer lead, headlight plugs, third brake light, horn relay, turn signal and 4-way hazard flashers, fuses, terminal ends and wire ties.

Easy-to-follow instructions and schematics are included.

12 Circuit Wiring Harness

- Accessory
- Air Conditioning/Heat
- Brake/Courtesy Lights
- CB Radio
- Cooling Fan
- Gauges/Instruments
- Hazard
- Headlights
- Parklights
- Radio
- Turn Signal
- Wiper

18 Circuit Wiring Harness includes all the features of the 12 Circuit Harness plus:

- Clock/Lighter
- Cruise Control
- Fuel Pump
- Power Locks
- Power Seats
- Power Windows

36-3660	HARNESS-12 CIRCUIT	449.94	359.95
36-3661	HARNESS-18 CIRCUIT	499.94	399.95

12 Circuit Fuse Center Connects To Your Existing Wiring

Now a quality 12 circuit pre-wired fuse block is available for connection to your existing vehicle wiring or for use as a starting point for custom wiring. This factory assembled and completely terminated fuse block includes wiring provisions for:

- Air Conditioning/Heat
- Brake Lights
- Coil (anti-theft feature)
- Dome Light
- Electric Fan
- Emergency Flasher
- Gauges/Dash Instruments
- Headlights
- Horn
- Radio (ignition hot)
- Turn Signals
- Wipers

Features blade-type fuses, flasher, horn relay and a large selection of terminal ends. It has a compact size for ease of mounting; measures just 4-1/2" x 5". It also has an anti-theft feature that allows you to simply remove the coil wire fuse from the fuse block to deter vehicle theft. Easy-to-follow instructions are included. Call or go online and order yours today.

Headlight Warning Buzzer

Have you ever drained your battery because you left your headlights on? This handy little

Headlight Warning Buzzer will make sure that never happens again. If your truck was never equipped with a warning buzzer or you cannot find a replacement for your original, this Headlight Warning Buzzer will do the job. Connects right to your fuse box and works with both glass and blade-type fuses. Easy-to-use instructions included.

36-3617	HEADLIGHT WARNING BUZZER	21.19	16.95
---------	--------------------------	-------	-------

Daytime Running Light

The brightest idea in safety since the third brake light. This kit automatically turns your headlights on at a reduced intensity whenever your engine is running. Much easier and safer than just turning your headlights on and off every time you drive.

The lower intensity prolongs the life of your bulbs and your turn signals are more visible compared to full power headlights.

Daytime Running Lights are easy to install. Just mount the controller in the engine compartment with the included self-tapping screws and connect the crimp-connection wires.

Not for use on models with Heavy-Duty Headlight Harness.

Courtesy Light Kit

This Courtesy Light Kit provides plenty of light to those hard-to-see areas at night. This kit includes two interior light assemblies with bulbs, connectors and terminals, door jamb switches and easy-to-follow instructions and schematics.

36-3614	COURTESY LIGHT KIT	49.94	39.95
---------	--------------------	-------	-------

High Beam Headlight Relay Kit

Since the four-headlight system was introduced in 1998 on GM pickups, owners have wondered why their low beams go off when the high beams are turned on.

This kit will increase the intensity and improve the spread pattern by keeping all four lights on when in high beam mode.

Heavy-Duty Headlight Harness

36-3580

Upgrade your headlight's wiring harness for maximum light output with this Heavy-Duty Headlight Harness. If you are adding brighter bulbs or upgrading to high power halogen lights, then you need to improve your wiring to take full advantage of the extra light output.

This Headlight Harness draws power directly from your battery, whereas your original wiring draws its power from your headlight switch. This harness takes the load of switching the high current needs of upgraded headlights from your old factory switch. Not only does this prevent excessive wear on the switch, it will lessen the chance of your wires melting or catching fire.

This Heavy-Duty Harness is complete with separate relays for low and high beams and features OE style headlight sockets for easy installation with no splicing or cutting required. Call or go online and order yours today!

Not for use on models with Daytime Running Lights.

CodeScout 2500 Code Reader

For Your Computer Controlled Truck

38-1312

Is your check engine light on and you don't know why? Have you checked everything under the hood several times and still don't know what is wrong?

Newer trucks may look complicated under the hood with a maze of wires, tubes and computer controls. But they are simpler than you think when you have the right tool. The CodeScout Code Reader can tell you what is wrong without even lifting the hood. The CodeScout allows you to plug into your truck's computer and get the same information as the dealer service technician. Simply plug into the computer connector, punch a few buttons and the CodeScout will tell you what is wrong. If there is a problem detected by the engine computer the CodeScout will retrieve the code from your truck and tell you what it means in plain English. Now anytime the check engine light is on you have the ability to diagnose it yourself and decide if you want to fix it or take it to a repair shop. When the problem is fixed, the CodeScout can even reset your check engine light.

This is the fastest and easiest way to diagnose and fix problems on your computer controlled truck.

CodeScout Features And Specifications:

- Multi-line text and graphic display with contrast control.
- Displays current and pending trouble codes in English or Spanish.
- On screen definitions of trouble codes from built-in OBD-II library.
- Displays readiness monitors for emission components evaluation.
- Resets check engine light.
- 4 AA battery powered with data save to review data off vehicle.
- Retains the most currently scanned vehicle's data and configuration.

Includes cables, removable rubber protective boot, printed manual, CD with code descriptions and manual, batteries and soft carrying case.

CodeScout Code Reader can be used for more than just your truck. Works on all computer controlled domestic OBD-I vehicles 1982-95 and all OBD-II vehicles 1996 and later.

Under Hood Lamp Kit

36-4502

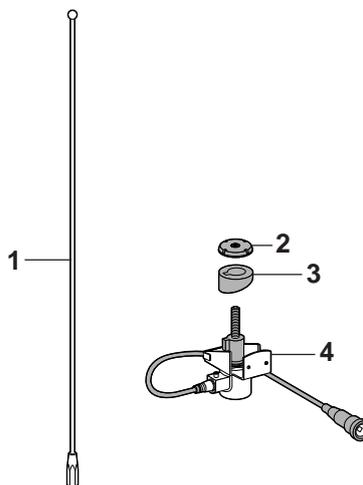

This Under Hood Lamp Kit adapts to any 12 volt truck and helps illuminate your engine bay. Necessary installation hardware is included with lamp. No need for wiring to a switch, bulb socket base is gravity activated, lamp comes on when the hood is raised and goes out when lowered. Mount underneath hood and connect lamp wire to any constant hot vehicle wire. Moisture proof in-line fuse is integrated into wire for your protection.

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to the mounting bracket may be needed to assure the light goes out when the hood is closed. After the mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed.

Ordering: Your Responsibilities

- Be prepared with correct mailing zip code.
- Give correct part number, description of part and quantity desired.
- State make, model, year of vehicle and chassis ID number where pertinent.
- Have credit card account number, expiration date, name as it appears on the card and a billing address ready before you phone. Any incomplete/incorrect information will delay your order.
- Specify if shipping address is different from mailing address, be prepared with correct mailing zip code.
- To ensure accuracy, speak distinctly and spell your name, street, city and state.
- When ordering by mail or fax include all information above, use Order Form whenever possible and please print clearly. Include daytime phone number.
- When ordering by mail or fax, the correct parts total with additional charges are your responsibility.

Parts Information

We are not trained automotive technicians. You should consult local machine shops and mechanics regarding technical advice. Technical information is included in workshop manuals shown in catalogs.

Availability Of Parts

Every part listed in this catalog at the time it was written was available to us from our importers, suppliers, manufacturers or was being planned as a reproduction. We serve a hobby that spans over 30 years and, even for late model cars, parts become discontinued. When a part is discontinued, it will be removed from the next current catalog. If you have ordered an item that becomes discontinued, the part will be cancelled from your order. You will be notified and refunded, if prepaid.

Substitution Of Parts

We reserve the right to substitute products of similar nature and like quality.

Backorders

If a part you ordered is not in stock at the time you placed your order, chances are it is already on the way to us. Such items will show as backordered on your packing list and will be shipped as soon as possible. If you do not want backorders to be filled, simply write "No Backorders" on your order form. Backorders can be cancelled prior to shipment by calling our customer order line, 1-800-562-8782.

Cancelled Orders

Orders will be cancelled for the following reasons:

1. Declined credit card.
2. Non-shipment status.
3. Part number given is invalid (if it is the only part on your order).
4. Orders with incomplete/incorrect information will be cancelled within 5 business days. Ten days after the third attempt to contact you, your order will be cancelled.

Abbreviations

The following may appear on your packing list:

- BACKORD - Backordered, will ship when available.
- TOS - Temporarily Out of Stock. Part cancelled. Please reorder in 3-4 weeks.
- TBA - To Be Announced (Availability). Part cancelled from order. Check availability at a future date.
- NLA - No Longer Available, stock depleted or no manufacturer.

Part Number Definitions

- T - After a part number means that part must be shipped Truck Freight. The prepaid order will include a \$100.00 charge for delivery in the 48 contiguous United States. Orders outside of 48 states will be quoted.
- Z - After a part number means Remanufactured Part - Core charge will be applied then refunded after receipt of a rebuildable core.
- R - After a part number means Remanufactured Part - No core charge.

Payment Methods

1. Credit or debit cards accepted: Visa, MasterCard, American Express, Discover.
2. PREPAID ORDERS MUST BE PAID IN U.S. FUNDS. Not responsible for cash sent through USPS, UPS or other delivery methods. Money orders or certified checks **payable to Long Motor Corporation** are preferred since personal checks may cause a delay. NO FOREIGN CURRENCY.
3. C.O.D. orders will only be shipped for cashier's check or money order upon delivery. Refer to **C.O.D.'s** Section on the following page.
4. Gift certificates redeemable only upon receipt.

Credit Card Charging

We do not charge your account when we receive your order. We only charge your account at the time the order goes to shipping and for only those items being shipped. **Your copy of the packing list is your record of payment.**

- Refunds are made in the same manner in which you made payment. Credit to your charge card or refund check if you paid by check. Credit to your charge card will not appear until you receive your next billing statement. Refunds on orders paid by check will be issued after 10 working days from receipt of check.

Balance Due

On prepaid orders, where there is a balance due, you will be notified.

Drop Shipped Items

Shipped truck freight collect from the manufacturer for actual charge. Approximately \$190-\$250 residential. \$80-\$145 business zone. No free shipping. Please allow 7-8 weeks for delivery. If the part is cancelled a fee will apply. The cancellation fee will be calculated by the manufacturer and will be deducted from the refund.

Returns Policy

- We consider all sales final unless a part is either: (1) Defective (2) Other than ordered.
- A return will not be accepted after 180 days (unless under extended manufacturer warranty shown in catalogs). Returns must be made in their original cartons.
- Any part returned must be in NEW-SALE condition as determined by our returns department.
- Parts which installation has been completed or attempted are not returnable. It is the customer's responsibility to check parts for correct fit BEFORE installation.
- A part which has been disassembled, drilled, welded, cut, painted or modified in any way cannot be returned. Any incomplete kit cannot be returned.
- Installation, disassembly or modification done by a third party on behalf of a customer is not an exception to our policy. The purchaser has full responsibility for the condition of the part.
- Refunds are made in the same manner in which you made payment. Credit to your charge card or refund check if you paid by check. Refunds on orders paid by check will be issued after 10 working days from receipt of check. Refunds of less than \$1 will not be refunded without customer request.

Returns Procedure

- For a return to be accepted (exchange/refund), the procedure on the back of the packing slip must be followed exactly. Call Customer Service for return authorization on **Truck Freight** parts or **orders shipped outside the 48 States**. It is not necessary to call for authorization on **UPS** or mail shipments inside the 48 contiguous United States. The original packing slip or a copy of **both sides must accompany the return**. Failure to include invoice with your shipment will delay the return processing and may result in a 20% restocking fee. **Keep A Copy For Your Records!**
- All returns must have shipping charges prepaid, including duties, customs and special handling charges, where applicable. We recommend that you return your items via UPS for better service and traceability. COD's will not be accepted.
- On returns due to our error, your shipping expense will be reimbursed based only upon **UPS ground** charges. If a reship is necessary, we will pay ground shipping charges. Call for return authorization on **Truck Freight** parts.
- Unauthorized Truck Freight returns will be charged 20% restocking fee plus the actual roundtrip Truck Freight charges.
- If the return was not caused by our error, or not accompanied by a copy of the original packing slip, a restocking fee of up to 20% may be charged. This fee will be waived if the full credit from the return is applied to a new order received with the returned parts.
- On CD returns, if the tamper-proof seal on the CD case is broken, it may be returned for an exchange for the same part number only.
- Please package your returns carefully in original container(s) and send to the following address. We are not responsible for damages. **15450 W. 108th Street Lenexa, KS 66219**

Shipping/Damage Claims

Please open your package(s) and check the items and packing list as soon as received. Some small parts are occasionally packaged inside larger ones. For accuracy your order has been checked twice.

All parts are F.O.B., Lenexa, Kansas. DAMAGED SHIPMENTS ARE THE RESPONSIBILITY OF THE CARRIER. Should your shipment appear to be damaged or opened when received, check the contents in the presence of the carrier's agent. Report any discrepancies and file a damage claim with the carrier at that time.

- On Truck Freight Shipments: It is the customers responsibility to have driver note all damage on the freight bill BEFORE YOU SIGN FOR THE PACKAGE.
- On Concealed Damage (not noted when delivered) contact the carrier.
- Save all packing your order was received in.
- Claims for shortages or damaged parts (visible or concealed) must be made to the carrier within **15 days** of receipt of parts or the claims will not be honored.

Warranty

- LMC TRUCK guarantees all parts for exchange or refund up to 180 days provided all criteria for a return are met. See **Returns Policy & Procedure**.
- In some instances the manufacturer's warranty extends this limit. These extensions are noted in the catalog. Example: Hedman Heddners.
- All parts are subject to the manufacturer's warranty on workmanship and materials. Long Motor Corporation dba LMC TRUCK will not be responsible or liable for labor, incidental or consequential damages of any kind. Our maximum liability shall not exceed the cost of the product.
- Failure of a part due to misuse, incorrect installation or failure of related parts is not covered by warranty and is not the liability of Long Motor Corporation dba LMC TRUCK.
- The warranty period begins at Date of Purchase.
- If we are unable to exchange a part, due to backorder or no longer available status of the part, we will refund you the original purchase price of the part.

Prices

We establish prices and hold those prices until a new edition or supplemental price sheet is published. Except for unusual circumstances the price in the current catalog "Sell" column is the low price you will pay.

Catalog Errors

We have made every effort to assure that the information in this publication is correct. We will not be held liable or responsible if any inaccuracy exists in specifications or pricing. We reserve the right to correct any errors.

Your Rights

As a mail order customer you have certain rights according to federal regulation. We want you to be aware of those rights and be assured we will protect those rights. We are in business to serve you.

- If we are unable to ship your order within 30 days of the date received, we will notify you. On prepaid orders over 60 days, your written approval is required, or parts will be cancelled and you will receive a prompt refund.

LMC TRUCK Rights

- We reserve the right to refuse service or shipment to anyone.
- We reserve the right to collect a service charge of \$20 for a returned check. Insufficient fund accounts will be held for no shipments until fee is collected.

Effective October 3, 2007

These charges supersede all previous publications.

Order Charge

The following charges will be added to your order where applicable:

1. "Delivery and Handling Charge" based on "Parts Total" of order.
2. "Core Charge". See "Core Charge".
3. \$9.00 for "C.O.D. Orders".
4. Orders shipped within Kansas will be charged the current combined state and local sales tax rate for the delivery address. Orders that are picked up at the City Counter will be charged the current applicable rate. If a Kansas State Exemption form is on file or provided, no sales tax will be charged.

Delivery & Handling Charge (D & H)

1. Delivery & Handling Charge is a system we have designed to speed processing of your order and to eliminate confusion.
2. This charge covers handling, containers, shipping and insurance.
3. This charge is based on "Order Parts Total", excluding items which ship truck freight. -T parts must ship Truck Freight. All truck freight must be prepaid. Prepaid truck freight in the 48 contiguous United States will be \$100.00. This includes shipping, handling and insurance.

We reserve the right to choose method of shipment.

Delivery Policies

1. Free delivery on orders over \$1000.00 that ship UPS Ground. ▼ Below
2. Free delivery on orders over \$1000.00 that ship Truck Freight. ▼ Below
3. Free delivery orders must be placed at one time. We reserve the right to split shipments.
4. Long Motor Corporation cannot assume responsibility for any interruption of delivery service due to a cause beyond the carrier's control, including, but not limited to: weather, strikes, lockouts or labor disputes.

▼ **Free delivery exceptions:**

- A. No free delivery on Orders Outside of 48 Contiguous United States.

Saturday Delivery Charge

- UPS Saturday Delivery is only available upon request.
 - UPS Saturday Delivery is not available in all areas.
 - **A \$10.00 charge will be added to Next Day Air Charges.**
 - Delivery is not available to orders outside of the 48 contiguous United States, APO/FPO addresses, P.O. Box numbers or for -T truck common carrier parts.
1. All orders must be prepaid. **No C.O.D.'s.**
 2. All orders must be received by Friday 3:00 p.m. Central Time in order to ship Saturday Delivery.

Air Delivery Charge

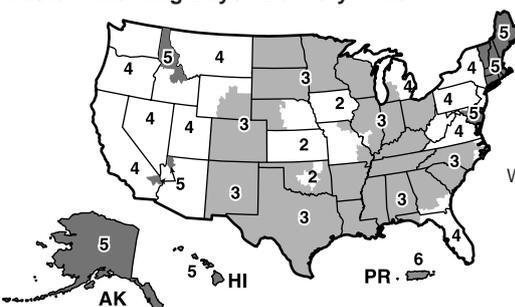

1. All orders in the 48 contiguous United States must be received by 3:00 p.m. Central Time, Monday through Friday in order to ship same day (except holidays).
 - Next Day Air & Second Day Air service is available in the 48 contiguous United States. Air Service delivery is only available upon request. Next Day is guaranteed the next business day. Second Day Air delivery is guaranteed for delivery on the second business day.
 - Next Day Air Service or Second Day Air deliveries scheduled to deliver between December 12 and December 25 are not guaranteed.
 - Delivery is not available to APO/FPO addresses, P.O. Box numbers or for -T truck common carrier parts.
2. Limitations on size and/or weight do apply to some items. If this occurs on your order, you will be contacted prior to shipping for additional charges or shipping method changes.
3. Backorders will be shipped by ground service methods. If backorders are requested to ship air, additional air charges will be applied to the backorder shipment.

APO/FPO

1. C.O.D. is not allowed on APO/FPO orders.
2. Before placing your order, check to be certain parcels will be accepted and delivered to your APO/FPO location.
3. All APO/FPO shipments will be sent Insured Priority Mail via the U.S. Postal Service. Size limitations apply.
4. All orders will be shipped complete.

No Truck (-T) item can be shipped to APO/FPO location; no exceptions.

Faster "Working Days" Delivery Time

Toll Free USA & Canada

 Kansas City Area
913-492-8756

Orders Will Be Delivered Between 2 - 6 Business Days

- "Working Days" are Mondays - Fridays less holidays.
- Complete orders will be processed and sent to shipping within 24-48 hours.
- Partial orders will be shipped as soon as possible.
- Backorders normally are filled in 1 or 2 weeks.

UPS Regular deliveries are not made on weekends or holidays. Rural areas may need to add 2-3 days for delivery.

Core Charges (-Z Parts)

"Core Charges" are charges on items that are remanufactured. The core charge is added to your order and normally assures you will return a unit that can be sent to the manufacturer to be rebuilt. Without the constant inflow of rebuildable units, those items will become unavailable and discontinued. The core charge will be refunded per the policy below.

1. Ship the core back to us postpaid. **WE WILL NOT ACCEPT C.O.D.'S.** Return postage will not be refunded on the core return.
2. Refunds will be issued only for parts that have been purchased from us. Core returns must include a copy of your packing list showing core charges.
3. For a refund the core must be: rebuildable; complete, no missing pieces, and it must be fully assembled. Cores containing oil or any fluid must be completely drained. Cores returned with excessive oil/fluids, non-rebuildable and unidentified cores will not be refunded and will be disposed of at our discretion. In addition to the above policy, specific core refund requirements are found where the part appears in the catalog.
4. Upon receipt and approval of your core, the core charge will be refunded in the same manner as payment was originally made. Refund process may take 7-10 business days depending on the manufacturer.

15450 W. 108th Street, Lenexa, KS 66219

C.O.D.'S

1. All C.O.D. orders will be shipped for cashier's check or money order. No exceptions.
2. You must provide an address where someone is available 8:00 a.m. - 5:00 p.m. Monday-Friday to receive and pay for your C.O.D. shipment.
3. Undelivered or refused C.O.D.'s will cause your account to be flagged for prepaid orders only. The parts will be returned to our stock.

C.O.D.'s are not allowed on:

1. Items which must be shipped by truck common carrier ("-T" suffix).
2. Orders outside of the 48 contiguous United States.
3. Air Delivery orders.
4. APO/FPO orders.
5. Post Office Box delivery.

Alaska, Hawaii and Puerto Rico

1. Orders must ship complete. (Any split/partial shipments will incur double shipping costs.)
2. Payment must be made in U.S. funds. Not responsible for cash sent through USPS, UPS or other delivery methods. No personal checks.
3. Your responsibilities include additional delivery costs, oversized and overweight charges which will be added to your order. You must provide a Central Time day telephone number or fax number on your order.
4. Limitations on size and/or weight will apply to shipments. Additional charges for delivery is the responsibility of the customer. Ten days after the third attempt to contact you, your order will be cancelled.

Order Parts Total	USPS Priority Mail Alaska, Hawaii & Puerto Rico
